Huibregtse, 2010-04-11 American historians tend to believe that labor

activism was moribund in the years between the First World War and the New Deal Jon Huibregtse challenges this perspective in his examination of the railroad unions of the time arguing that not only were they active but that they made a big difference in American Labor practices by helping to set legal precedents Huibregtse explains how efforts by the Plumb Plan League and the Railroad Labor Executive Association created the Railroad Labor Act its amendments and the Railroad Retirement Act These laws became models for the National Labor Relations Act and the Social Security Act Unfortunately the significant contributions of the railroad laws are more often than not overlooked when the NLRA or Social Security are discussed Offering a new perspective on labor unions in the 1920s Huibregtse describes how the railroad unions created a model for union activism that workers organizations followed for the next two decades **Acts and Laws, Made and**
