

Trane split outdoor air conditioners and heat pumps, when combined with an indoor gas furnace and cooling coil or an air handler, provide a balanced system to offer you maximum comfort at lower operating costs. The XE 1100 air conditioners offer efficiency SEER ratings in the 11.00 range and HSPFs in the 8.00 range, which exceed the minimum standards mandated by federal standards today.

Plus, if your old unit is at least 10 years old, you could realize up to 45 percent accumulated savings over a 3-year period of operating costs. That savings is based on a comparison of an old 6.00 SEER unit with a new 11.00 SEER.

Efficiency ratings and lower operating costs, coupled with advanced technology features shown below, are some of the reasons why Trane is a world-class manufacturer of heating and air conditioning products.
