Employment Practices Decisions, 1971 A full text reporter of decisions rendered by Federal and State courts throughout the United States on Federal and State employment practices problems *BNA's Americans with Disabilities Act Manual*, 2006 *Transforming Food Environments* Charlotte EL Evans, 2022-03-22 We regularly find ourselves in food environments that promote the consumption of high fat and sugary foods rather than encouraging us to eat more fruit and vegetables. However, because of increased media attention, people are becoming more interested in alternative approaches to improving the many food-related decisions we make daily. *Transforming Food Environments* features evidence from several disciplines exploring initiatives that have improved food environments and discusses the importance of achieving success in equitable and sustainable ways. The book presents information on diverse food environments followed by methods that help readers become aware of the design of interventions and food policies. It covers food environments in schools, workplaces, and community centres, as well as fast food establishments and food marketing. The book presents methods to help encourage better food choices and purchase of healthier foods. It explores persuasion tactics used by health professionals such as changing availability and/or price using nudging techniques and food labelling. Led by Editor Charlotte Evans, Associate Professor of Nutritional Epidemiology and Public Health Nutrition at the University of Leeds, and written by an international range of authors from countries including the US, Canada, Australia, New Zealand, Japan, and the United Kingdom, this multidisciplinary book appeals to students, researchers, public health professionals, and policy makers. It also raises awareness and provides a comprehensive treatment of the importance of our environments on food choice.

International Business Law Mark Fenwick, Stefan Wróblewski, 2018-07-12 This book provides an accessible introduction to selected new issues in transnational law and connects them to existing theoretical debates on transnational business regulation. More specifically, i) it introduces the argument about the evolving character of contemporary international business regulation; ii) it provides an overview of some of the main fields of law that are currently important for firms that operate across borders; and iii) it sets out an interpretive framework for making sense of disparate developments occurring across a number of jurisdictions, among which are the form of regulation and style of enforcement, issues of legal certainty, and behavioural aspects of regulation. The selected topics are indicative of some key issues confronting businesses looking to operate across national borders, as well as policy makers seeking to introduce and enforce meaningful regulatory standards in an increasingly global society. Topics include consumer law, product liability, warranty law, and obsolescence, collective redress, alternative dispute resolution, corporate wrongdoing, corporate governance, and e-commerce. This timely work offers a novel perspective on transnational business law and examines a range of legal issues that preoccupy companies operating transnationally. This book is intended not only for law students looking for an introduction, overview, or commentary on the contemporary state of international business law, but also for anyone looking for an introduction to the regulation of business in a global, interconnected economy.
