Place Value Discs:

The Parent Connection for Singapore Math Sandra Chen, 2008 Singapore Math strategies can do wonders for student achievement but only if the parents are behind the program Get them on your side by showing them exactly how the strategies work and why they are so effective And save hours of prep time by using these ready to go handouts to provide explanations and practice Even includes special tips for winning over difficult parents Grades 1-6 Amazon **Accelerating K-8 Math Instruction** Nicki Newton, 2023 This book discusses Acceleration in Math Acceleration is a paradigm shift It is moving away from schlepping students through the fields of everything they don't know and targeting the interventions so that it serves as a footbridge into the right now Acceleration helps all students to be in the know It prepares them for upcoming lessons so that they can actively participate with the peers exploring grade level standards Acceleration is a way of saying Everybody is invited to this party Throughout this book you will learn ways to plan implement and evaluate accelerated lessons in math *Sensational Math 4-Value Whole Numbers Place Value Discs Set* Primary Concepts, 2015-08 These easy to manipulate discs provide hands on practice for developing number sense Color coded according to place value the foam discs allow students to visually track what happens when they regroup numbers in both addition and subtraction And they help illustrate that multiplication is the same as repeated addition and division the same as repeated subtraction Packaged in resealable poly bag for easy storage Discs are 1 in diameter 1/8 thick and made of EVA foam for easy manipulation and quiet classroom activity 25 each of 4 values one ten hundred thousand 100 total discs in set Color coding system matches Sensational Math™ Jumbo Magnetic Place Value Demonstration Discs and Sensational Math™ Place Value Cards A GEI Endorsed Product *Figuring Out Fluency - Operations With Rational Numbers and Algebraic Equations* Jennifer M. Bay-Williams, John J. SanGiovanni, C. David Walters, Sherri Martinie, 2022-07-25 This book is awesome What stood out to me was the deep understanding I was able to have about what fluency actually means Too often the message has been fluency and accuracy especially at the middle school level By providing teachers with tools for building fluency with integers expressions and algebra this book shifts that message to also focus on flexibility and strategy selection Lindsey Henderson Secondary Mathematics Specialist Utah State Board of Education Salt Lake City UT Because fluency practice is not a worksheet Fluency in mathematics is more than adeptly using basic facts or implementing algorithms It is not about speed or recall Real fluency is about choosing strategies that are efficient flexible lead to accurate solutions and are appropriate for the given situation Developing fluency is also a matter of equity and access for all learners The landmark book *Figuring Out Fluency in Mathematics Teaching and Learning* offered educators the inspiration to develop a deeper understanding of procedural fluency along with a plethora of pragmatic tools for shifting classrooms toward a fluency approach Now teachers have the chance to apply that inspiration through explicit instruction and practice every day with the classroom companion *Figuring Out Fluency Operations With Rational Numbers and Algebraic Equations* With this book teachers can Dive deeper

into the Significant Strategies for fluency explained in the anchor book as they apply to rational number operations Explore how these strategies can be applied for proportional reasoning solving equations for unknowns and solving systems of linear equations Access over 100 classroom ready activities including worked examples routines and games Find activities to explicitly teach students how to use and choose strategies to operate on rational numbers and solve algebraic equations Download all of the needed support tools game boards and other resources from the companion website for immediate implementation Give each and every student the knowledge and power to become skilled and confident mathematical thinkers and doers

Big Ideas in Primary Mathematics Robert Newell, 2016-11-14 Lightbulb moments for you and your pupils This book explores the big ideas in maths to help trainee teachers confidently teach the curriculum in a way that engages children and focuses on understanding rather than memory for those lightbulb moments Covering the major concepts in simple terms whilst carefully linking to the National Curriculum it shows how they can be used to enable learning and support mathematical mastery A focus on explaining misconceptions and errors will strengthen trainees and teachers own mathematical subject knowledge while also giving them the confidence to deepen their understanding of the children they teach Key topics include Problem solving reasoning and developing fluency in maths Place value and counting systems Measuring money time and weight Geometry and understanding space and shape Fractions and statistics for the primary classroom This is essential reading for anyone studying primary mathematics on initial teacher education courses including undergraduate BEd BA with QTS and postgraduate PGCE PGDE School Direct SCITT routes and also NQTs Robert Newell is a tutor in primary education at the UCL Institute of Education London

[Instructional Strategies to Move Learning Forward](#) Douglas Fisher, Nancy Frey, Kierstan Barbee, Sarah Ortega, 2025-06-26 50 Instructional Strategies for Developing Independent Learners Discover over 50 strategies to meet your students where they are and help them succeed Every teacher faces a recurring question in the classroom What strategy will help this student learn right now With hundreds of potential strategies available the challenge lies in choosing the right approach at the right time Instructional Strategies to Move Learning Forward does exactly that equipping educators with thoughtfully curated instructional strategies designed to advance learning for all students Grounded in the Gradual Release of Responsibility GRR framework this book empowers you to select and implement purposeful strategies that address your students specific needs at a specific moment in their learning while ensuring long term success This content rich guide provides practical tools and insights that emphasize why when and how instructional strategies can move learning forward with Research informed rationale for why each strategy works and how each supports meaningful learning Detailed step by step guidance for implementation ensuring every strategy can be immediately applied in your classroom Adaptability across contexts Strategies designed for use across grades content areas and student needs including multilingual learners and those requiring differentiated support Connections for each strategy to the GRR framework for cohesive lesson planning and consistent results This resource is not about collecting

tools it's about reflection intentionality and impact Whether you're a new teacher seeking strategies to build your toolkit or an experienced educator refining your craft this book will help you make informed instructional decisions that lead to powerful learning opportunities Learn how to foster clarity connection and critical thinking in your students while building confident and independent learners

Nurturing Your Child's Math and Literacy in Pre-K-Fifth Grade Mary Mueller, Alisa Hindin, 2016-11-23 With recent changes in the curriculum and standards in language arts and mathematics parents often are challenged to find ways to help their children be successful in their learning endeavors While parents want to be involved in their children's education they are often unsure of their role in their children's learning and the best ways to help their children to succeed academically Moreover with the changes in how math and literacy are being taught parents often struggle with helping even first grade children with their homework In this book we set out to alleviate this struggle by offering parents a resource they can use to navigate their child's education communicate with teachers and support their children in learning mathematics and literacy After providing an overview of the current educational climate and tips for communication with teachers we share strategies and suggestions parents can use to assist their children in language arts and mathematics We provide detailed descriptions of activities games books and conversations that connect with what children will be learning at each grade level

The Challenge of Teaching Gretchen Geng, Pamela Smith, Paul Black, 2016-10-11 This book presents thirty one accounts by final year pre service teachers providing guidance and insights for less advanced teacher education students and illustrating the use of life history and narrative stories as methods for pre service teachers to explore educational issues in classroom practice This life history approach identifies those political economic and social forces that have impinged on the individual at different points in their life and contributed to the process of changing their identities These stories are not written by established specialists in the areas they deal with but instead by novice teachers at the beginning of their paths

towards mastering the intricacies of teaching and learning in school settings As such the book provides a mentoring framework and a means of helping pre service teachers share their valuable experiences and insights into aspects such as how to manage practicum requirements It helps establish a supportive relationship among pre service teachers providing them with access to valuable peer experiences In addition it helps pre service teachers make sense of their own practicum experiences and reflect on their own beliefs and professional judgement to develop their approaches and solve problems in their own classroom practice

The Mother of All Marketing Systems Volume 1 Brian Cassingena,2009-01-07 Finally get off the treadmill and start making the kind of money you deserve with this 3 volume marketing series Pick and choose from subjects like copywriting internet marketing for moms self improvement teleseminar secrets and more Whatever you need to get rich it s here
