represents in our times has made people in favor of and against its effects in our habits behavior and even brain structure The fact is that they will never agree if it is beneficial or not as the individuals in the world are varied as are their needs habits ideologies and other aspects In such a small nucleus like a family there can be discrepancies concerning said quandary The truth is that it exists and it is the main tool of our time However heads of households teachers and other similar people concerned over the moral good that this tool influences have come to prohibit it in several places this seems sad to me as this tool contains all of the human knowledge up to today and it would be a betrayal to our advance as a humanity denying us the right to enjoy this knowledge That s why I have collected in this book and in those that will follow only some of the best ideas that the majority of professionals will suggest that are found on the internet After being a website and self help book translator from four languages to Spanish I have realized that not all languages have the same information on the internet I have noticed also that there is very valuable information out there but it is found in specialized blogs or in very lengthy articles that few people wish to read in their short navigation routine This is the reason that I decided to do this collection A book has a different manner It claims a distinct moment for itself just like the one network navigation claims for itself It usually barely gives us time to read publications that interest us or manage to distract us or improve our mood stressed by the crazy and unending movement of the times that we live in To that end I have tried to present the material in the most enjoyable way possible and in small chapters that are good for reading while waiting in line in transportation in the last minutes of t
