Description :

Is philosophy obsolete? Are the ancient questions still relevant in the age of cosmology and neuroscience, not to mention crowd-sourcing and cable news? The acclaimed philosopher and novelist Rebecca Newberger Goldstein provides a dazzlingly original plunge into the drama of philosophy, revealing its hidden role in today's debates on religion, morality, politics, and science. At the origin of Western philosophy stands Plato, who got about as much wrong as one would expect from a thinker who lived 2,400 years ago. But Plato's role in shaping philosophy was pivotal. On her way to considering the place of philosophy in our ongoing intellectual life, Goldstein tells a new story of its origin, re-envisioning the extraordinary culture that produced the man who produced philosophy. But it is primarily the fate of philosophy that concerns her. Is the discipline no more than a way of biding our time until the scientists arrive on the scene? Have they already arrived? Does philosophy itself ever make progress? And if it does, why is so ancient a figure as Plato of any continuing relevance? Plato at the Googleplex is Goldstein's startling investigation of these conundra. She interweaves her narrative with Plato's own choice for bringing ideas to life - the dialogue. Imagine that Plato came to life in the twenty-first century and embarked on a multicity speaking tour. How would he handle the host of a cable news program who denies there can be morality without religion? How would he mediate a debate between a Freudian psychoanalyst and a tiger mom on how to raise the perfect child? How would he answer a neuroscientist who, about to scan Plato's brain, argues that science has definitively answered the questions of free will and moral agency? What would Plato make of Google, and of the idea that knowledge can be crowd-sourced rather than reasoned out by experts? With a philosopher's depth and a novelist's imagination and wit, Goldstein probes the deepest issues confronting us by allowing us to eavesdrop on Plato as he takes on the modern world.

Ars Vitae Elisabeth Lasch-Quinn, 2020-10-15 Despite the flood of self help guides and our current therapeutic culture feelings of alienation and spiritual longing continue to grip modern society In this book Elisabeth Lasch Quinn offers a fresh solution a return to classic philosophy and the cultivation of an inner life The ancient Roman philosopher Cicero wrote that philosophy is *ars vitae* the art of living Today signs of stress and duress point to a full fledged crisis for individuals and communities while current modes of making sense of our lives prove inadequate Yet in this time of alienation and spiritual longing we can glimpse signs of a renewed interest in ancient approaches to the art of living In this ambitious and timely book Elisabeth Lasch Quinn engages both general readers and scholars on the topic of well being She examines the reappearance of ancient philosophical thought in contemporary American culture probing whether new stirrings of Gnosticism Stoicism Epicureanism Cynicism and Platonism present a true alternative to our current therapeutic culture of self help and consumerism which elevates the self's needs and desires yet fails to deliver on its promises of happiness and healing Do the ancient philosophies represent a counter tradition to today's culture auguring a new cultural vibrancy or do they merely solidify a modern way of life that has little use for inwardness the cultivation of an inner life stemming from those older traditions Tracing the contours of this cultural resurgence and exploring a range of sources from scholarship to self help manuals films and other artifacts of popular culture this book sees the different schools as organically interrelated and asks whether taken together they can point us in important new directions *Ars Vitae* sounds a clarion call to take back philosophy as part of our everyday lives It proposes a way to do so sifting through the ruins of long forgotten and recent history alike for any shards helpful in piecing together the coherence of a moral framework that allows us ways to move forward toward the life we want and need
