

How your project will be graded

This project is worth 100 points. Your project will be graded based on the following criteria.

Criteria	25 points (Excellent)	20 points (Good)	15 points (Fair)	10 points (Poor)
Overall Presentation	The coordinate plane picture <u>and</u> directions are neat and legible. A ruler was used to create straight edges.	The coordinate plane picture <u>and</u> directions are legible but are not neat.	The coordinate plane picture <u>or</u> directions are not neat or legible.	The coordinate plane picture directions are neither neat nor legible.
Math Accuracy of Ordered Pairs	The named ordered pairs are very accurate. 96-100% of the ordered pairs <u>and</u> quadrants are correctly identified.	The named ordered pairs are mostly accurate. 85-95% of the ordered pairs <u>and</u> quadrants are correctly identified.	The named ordered pairs are somewhat accurate. 70-84% of the ordered pairs <u>and</u> quadrants are correctly identified.	The named ordered pairs are not accurate. Less than 70% of <u>the</u> ordered pairs and quadrants are correctly identified.
Distance between two points	All distances given are accurate and work shows how to use ordered pairs to determine distance.	Most distances given are accurate and work shows how to use ordered pairs to determine distance.	Some distances are accurate OR work does not show how to use ordered pairs to determine distance	Some distances are accurate AND work does not show how to use ordered pairs to determine distance
Area of Shapes	Correct area given for all 4 shapes. Work shows how the area was determined.	Correct area given for at least 3 of your 4 shapes OR work for how you found the area is not included	Correct area given for at least 2 of your 4 shapes And/or work for how you found the area is not included	Incorrect area given for 3-4 shapes OR area for shapes is not included

Mathematics Teaching in the Middle School ,2007-08 *Differentiating Instruction with Menus* Laurie E.

Westphal,2007 *Differentiating Instruction With Menus* offers teachers everything they need to create a student centered learning environment based on choice Addressing the four main subject areas language arts math science and social studies and the major concepts taught within these areas these books provide a number of different types of menus that elementary aged students can use to select exciting products that they will develop so teachers can assess what has been learned instead of using a traditional worksheet format Each book contains attractive reproducible menus each based on the levels of Bloom s revised taxonomy for students to use to guide them in making decisions as to which products they will develop after studying a major concept or unit Using creative and challenging choices found in Tic Tac Toe Menus List Menus 2 5 8 Menus Baseball Menus and Game Show Menus students will look forward to sharing their newfound knowledge throughout the year Also included are specific guidelines for products rubrics for assessing student products and teacher introduction pages for each menu This book includes menus that teach students about whole numbers and operations fractions probability and statistics geometry measurement and problem solving **Neuroinformatics** Stephen H. Koslow,Michael F.

Huerta,2013-03-07 Modern neuroscience is providing profound insights into nature s most mysterious puzzle the human brain while applications of information and computer science are transforming the way people interact with each other and with the world around them The new science of neuroinformatics which sits at the junction integrates knowledge and promises to catalyze progress in these dynamic and seemingly disparate areas of study Neuroinformatics research will allow brain and behavioral scientists to make better sense and use of their data through advanced information tools and approaches These include new ways to acquire store visualize analyze integrate synthesize and share data as well as the means for electronic scientific collaboration In this country the principal source of support for neuroinformatics research is the Human Brain Project The project which is led by the National Institute of Mental Health now supports neuroinformatics research performed by over 60 scientists This volume presents the findings of the first group of researchers Their efforts will begin to arm the next generation of brain and behavioral scientists with tools to attack the serious problem of information overload and ultimately relate their findings to those obtained from different species levels of biological organization methods and laboratories And the challenges presented by the amount diversity and complexity of brain and behavioral data will give informatics researchers the impetus to test and expand the limits of their own science The work described in this volume signals a change in the way scientists interact with data instruments and each other and points the way to a very different and richer future understanding of the human brain and mind Connected Mathematics Prentice Hall (School Division),2003-04 **Ready to Use Geometry Activities and Projects: Grades 4-7** Amy Bowley,2014-04-29 Correlated to

the national standards these ready to use activities help teachers to engage students in geometry learning through fun hands

on activities Each of the classroom tested activities follows the same proven format and includes instructions for the teacher reproducible student handouts and rubrics for easy grading Many projects also include samples of actual student work Through completing each activity students will gain meaningful understandings of key geometry concepts in an enjoyable and purposeful way Designed to meet the needs of students of varying ability levels this book is a great supplement for any middle school or upper elementary math curriculum

Coordinate Graphing Hidden Pictures, Grades 3 - 5

Hall,2009-01-19 Engage students in grades 3 5 and build their confidence using Coordinate Graphing Hidden Pictures This 80 page book provides hands on activities for each week of the school year and ways to differentiate instruction while teaching essential standards based graphing skills Students plot ordered pairs and draw line segments to reveal hidden pictures while creative clues encourage guesses along the way This resource provides practice for first quadrant and four quadrant graphing teaches graphing vocabulary and includes up to five questions about each graph It supports NCTM standards and aligns with state national and Canadian provincial standards

10 Performance-Based Projects for the Math Classroom Todd Stanley,2021-09-03 Each book in the 10 Performance Based Projects series provides 10 ready made projects designed to help students achieve higher levels of thinking and develop 21st century skills Projects are aligned to the Common Core State Standards allowing students to explore and be creative as well as gain enduring understanding Each project represents a type of performance assessment including portfolios oral presentations research papers and exhibitions Included for each project is a suggested calendar to allow teacher scheduling mini lessons that allow students to build capacity and gain understanding as well as multiple rubrics to objectively assess student performance The lessons are presented in an easy to follow format enabling teachers to implement projects immediately Grades 3 5

Plotting Pictures

Paula Rozell,1995 In this unique collection of math activities students solve computational questions equations word problems and puzzles to find coordinates then connect the coordinates to create a cartoon image Extensions for some activities require students to add to or change the pictures and record new coordinates Topics include operations with integers decimals and fractions greatest common factor math puzzles magic squares symmetry Reproducible Includes blank graph pages

Making Coordinate Graphing Fun Donna Coco,2012-09-23 Tired of teaching coordinate graphing the same old way Students make pictures while practicing their coordinate graphing skills Students will know when they make a mistake and students will be able to self correct This resource book consists of differentiated coordinate graphs of holidays and the four seasons graphing paper contains the full size pictures that can be used as an over lay so that the teacher can check a student s work easily and fast

Coordinate Graphing Grade 5-8 Edward M. Housel,2009 Add intrigue to math lessons that cover equations fractions percents geometry probability and more In each of 56 activities students solve problems to find specific points to plot on graph paper As they come up with the correct answers they create pictures ranging from a dragonfly to a gas pump

Coordinate Graphing: Creating Pictures Using Math Skills Holiday Themed Book

With Mystery Hidden Pictures A Graph Art Puzzles Book Lora Dorny, 2021-10-21 This book helps children of all ages build their confidence strengthen mathematical thought and reasoning using Coordinate Graphing Mystery Hidden Pictures with Answers Included Your child should draw by coordinates to reveal the mystery picture plot and connect the dots with the given coordinates Answer included This is a great Holiday Themed math activity where your kids will practice plotting ordered pairs with these fun Easter Halloween Christmas St Patrick s Day St Valentine s Day and many more other graphs

Making Coordinate Graphing Fun Work Book Donna Coco, 2024-08-18 Coordinate Graphing made easy and self correcting Connecting the points of plots will produce a picture If the picture is not correct a student can go back to figure out what they did wrong Coordinate Graphing is part of almost all of middle school math classes so let s make it fun while they learn **Coordinate Graphing: Creating Geometry Quilts Grd 4 and Up** Marci Mathers, 2010-06 Bring a touch of the arts into math class With ordered pairs and graph paper students can create 36 quilt designs The designs vary in difficulty making them ideal activities for differentiated instruction They are great projects for bonus work Fun Fridays or days with substitute teachers When displayed on a bulletin board the finished quilt designs are sure to impress parents and administrators

This book delves into Rubric For Coordinate Plane Picture Project.
