Pratt, 2005-04-08 Disputes over valuation issues fill the court s dockets and for good reason fair market valuations are required frequently by the law The authors believe that approximately 243 sections of the Code and several thousand references in the Regulations explicitly require fair market value determination Consequently taxpayers file an estimated 15 million tax returns each year reporting an event involving a valuation related issue It is no mystery therefore why valuation cases are ubiquitous Today valuation is an important and highly sophisticated process Valuers need legitimate guidance to perform their work The objective of this book is to provide knowledge and guidance to those who do the valuations as well as those who are affected by them This unprecedented text provides Clear guidance and perspective on business valuation from two of the nation s top authorities Hon David Laro and Dr Shannon Pratt Insightful perspective and discussion on critical issues procedures and law pertaining to business valuation An overview of business valuation procedures Law and techniques of Fair Market Value Opinion from the Hon David Laro and Dr Shannon Pratt who express their unique and critical views The business valuer with everything from the basics to the sophisticated From definitions to valuing complex business interests what you need to know about business valuation Everything from empirical market evidence to credible expert business valuation testimony discussed and analyzed by the Hon David Laro and Dr Shannon Pratt **A Revolution of Rules** Erica Bornstein, 2025-08-12 What is it about nonprofits that inspires so many to passionately support their agendas and others to adamantly seek their control In India laws regulating the nonprofit sector were dramatically reformed between 2010 2020 reconfiguring relationships between corporations nonprofits and the government Thousands of nonprofits including powerful NGOs lost their ability to receive foreign funding and in 2015 dozens more were put on a state sponsored watch list While many assume that nonprofits are defined by the causes they champion A Revolution of Rules demonstrates that the nonprofit form is shaped primarily through its regulation in a dynamic process of democratic and political negotiation Erica Bornstein argues that the scrutiny of nonprofits in India must be understood in a wider global context of political judicialization and regulatory reform She examines how members of nonprofit organizations are the unsung heroes of democracy as they navigate a shrinking stage for rights based work and struggle to protect civil society The protagonists featured in this book include nonprofit workers lawyers accountants philanthropists and civil servants who conduct their work on the sidelines at workshops in modest offices through report writing and petitions To understand nonprofits and their relationship to democracy in the world Bornstein asserts one must look to the deceptively unassuming sites of struggle over the nonprofit form and its regulation
