Rumour And Reprisal:

Fake News Is Bad News Ján Višňovský, Jana Radošinská, 2021-09-08 We live in the era of the digital revolution characterized by easy access to obtaining processing and disseminating information on a global scale The emergence of these global digital spaces has transformed the world of communication This shift in our understanding of what we should be informed about when and how manifests itself not only within mature liberal democracies which grant their citizens and the media constitutionally guaranteed freedom of speech and rights associated with obtaining information but also within developing countries with different types of political establishments Moreover many media producers especially journalists and persons claiming to be journalists abuse their crucial mission and instead foster a set of serious communication phenomena that threaten basic human rights and freedoms weaken them or decelerate their development The publication is focused on the ways fake news disinformation misinformation and hateful statements are spread across society predominantly within the online environment Its main ambition is to offer an interdisciplinary body of scholarly knowledge on fake news disinformation and propaganda in relation to today's journalism social development political situation and cultural affairs happening all around the world

Discourse and Defiance under Nazi Occupation Cheryl R. Jorgensen-Earp, 2013-11-01 Captured by German forces shortly after Dunkirk and not relinquished until May of 1945 nearly a year after the Normandy invasion the British Channel Islands Guernsey Jersey Alderney Sark and Herm were characterized during their occupation by severe deprivation and powerlessness The Islanders with few resources to stage an armed resistance constructed a rhetorical resistance based upon the manipulation of discourse construction of new symbols and defiance of German restrictions on information Though much of modern history has focused on the possibility that Islanders may have collaborated with the Germans this eye opening history turns to secret war diaries kept in Guernsey A close reading of these private accounts written at great risk to the diarists allows those who actually experienced the Occupation to reclaim their voice and reveals new understandings of Island resistance What emerges is a stirring account of the unquenchable spirit and deft improvisation of otherwise ordinary people in extraordinary circumstances Under the most dangerous of conditions Guernsey civilians used imaginative methods in reacting to their position as a subjugated population devising a covert resistance of nuance and sustainability Violence this book and the people of Guernsey demonstrate is not at all the only means with which to confront evil

Peace-Making and the Imagination Andrew Strathern, Pamela J. Stewart, 2012-07-01 A compelling new book that presents a thoughtful and creative approach to transforming violent discordances this work examines the intractable issues of revenge and restitution in a conflict context It argues that in communities where violence must be paid for through compensation violent conflict can be contained With primary reference to the Highlands of Papua New Guinea and comparisons to cases from Africa Pakistan and other arenas of tribal social formations the account explores how rituals such as wealth disbursement oath taking sacrifice and formal apologies are often

used as a means of averting or transcending acts of vengeance after violence Through exploration of the balance between revenge and compensation at different junctures in the peace making process this compelling text devises a thought provoking and inventive analysis that would benefit countless communities in conflict around the world *Behind Barbed Wire* Tan Teng Phee, 2022-12-06 Behind Barbed Wire looks behind the facade to ask what it was really like to be moved to and live in a New Village Tan who himself lived in New Villages growing up combines archival sources and oral history to give us a rounded account We need Tan's book because up to now the outsider's view has predominated and outsiders have their own agenda Karl Hack in the Journal of the Malaysian Branch of the Royal Asiatic Society This unique book revisits the moment in the Malayan Emergency when some 500 000 women children and men were uprooted from their homes and moved into new settlements guarded day and night by police and troops A majority were rural Chinese market gardeners shopkeepers rice farmers tin miners and rubber tappers who had long made Malaya their home and had lived through the hardships of the Japanese Occupation Based upon newly accessible archival materials and painstaking multilingual interviews with more than 80 informants in four New Villages Tan Teng Phee rewrites the history of the Emergency exposing the voices of those at the heart of this lauded social experiment In Francis Loh's words these were ordinary villagers caught in the crossfire between the British security forces and the Malayan Communist Party whose lives were turned inside out and re-ordered completely with daily curfews body searches and food controls alongside the carrots and sticks of registration re-education sanitation psychological warfare and swift punishment Highlighting the disciplinary aims of British policy as well as the ways in which villagers resisted this discipline through weapons of the weak this book forms a unique history from below of the Malayan Emergency and of a resettlement programme which shaped the social and geographical landscape of Malaysia for generations to come *Cricket, My Style* Kapil Dev, 1987 Experiences of an Indian cricket captain **Rumors, Race and Riots** Terry Ann Knopf, 2017-07-12 Are race related rumors rooted in the personality traits of the individual Are they a kind of improvised news for a community Do they come and go at random or form definite recognizable patterns What role do the news media play in spreading rumors These and other questions are treated in this classic study now available in paperback with a new introduction by the author of how and why rumors emerge in connection with racial disorders Included is an examination and critique of the three major models of rumor formation the psychological approach emphasizing the emotional needs and drives of the individual the functional approach which views rumors as a form of improvised news and the conspiratorial approach which sees rumors as deliberately planted and not spontaneous The author's process model of rumor formation is based on the premise that rumors cannot cause violence and that violence cannot cause rumors Both are viewed as parts of the same process Rumors are seen as just one of a series of determinants each of which increases the likelihood of a collective outburst Among the determinants examined are conditions of stress a rigid social structure supported by a racist ideology and a hostile belief system or negative set of generalized perceptions held separately by

different groups Race related rumors are functionally tied to the latter point and crystallize confirm and intensify these beliefs by linking them to actual events Hundreds of pertinent rumors are documented from local newspapers and investigative accounts An exhaustive systematic inquiry is made into the series of disorders that occurred between 1967 and 1970 The role played by rumors during these disturbing times is examined and compared to earlier periods of unrest Implications for public policy are explored along with a hard look at rumor control centers The influence of the police and other public officials as well as the news media are

Mistrust Glynis M Breakwell, 2021-09-01 Mistrust in the 21st century is a major societal concern This book explores social psychological processes that explain why and how mistrust develops considers the effects that it has upon those who are mistrustful and those who are mistrusted offers a model of mistrust in individuals and communities which is based on theories of identity and social representation With examples ranging from the the 1872 US presidential election to the Trump era it also considers Brexit and has a significant focus on the Covid 19 pandemic By looking at the role of social media and how mistrust can be weaponised this book interrogates its place in our society Ultimately whilst feeling mistrust is part of being human this book warns that we ignore mistrust at our peril Dame Glynis M Breakwell is Professor Emeritus at the University of Bath in the Department of Psychology and has Visiting Professorships at Imperial College London University of Surrey and Nottingham Trent University

Behind the Fence Les

Chater,2001 Les Chater was captured early in 1942 when the Japanese invaded Singapore and Java His wife and small son escaped on an American troop ship and did not hear any news of Les for the next 18 months He spent the rest of the war in POW camps in Semplak Java and in Mitsushima and Kanose in Japan His secret daily record in four palm sized booklets was an ongoing challenge and a small defiance Every death and its cause is noted in these diaries Every meal the activities in the camp the personalities of guard and officials are described The Japanese civilians often little better off than the prisoners near the end are portrayed as friendly cheerful and respectful people Although this meticulous detail had no purpose other than as a chronicle the diaries became after the war an accurate and useful account of the treatment of POWs Chater also recorded names and vital information of his fellow POWs reproduced here in lists of America British and Chinese prisoners held in the camps with him in Semplak Java and Mitsushima and Kanose Camps in Japan These diaries were submitted as evidence in the Tokyo War Crimes Trials in 1947 Page 4 of cover Fred Lodge's Diaries L/Cpl Frederick Thomas

Lodge,2019-06-06 The wartime diaries of Fred Lodge underscore his perilous passage through World War 2 including the Dieppe Raid and three years as a POW in Germany Fred was a quiet kind considerate and courageous young Canadian who trained in Canada as an infantry soldier practiced his military skills in England waded onshore at Pourville France on August 19th 1942 survived intense German gunfire saw his buddies killed maimed indeed slaughtered Somehow he survived that awful day at Dieppe and was transported to Stalag VIIIB and later to Stalag IIC in eastern Germany As a POW he was often hungry bored shamed shackled witnessed summary executions and was forced to participate in a death march in early 1945 Through it all Fred Lodge was courageous and true to his beliefs no matter what obstacles temptations or mistreatment came his way He always did his best and the right thing Fred didn't hate Germans although he had no respect for inhumane NAZI zealots With the Russian Army fast approaching Canadian POWs were evacuated westwards in January 1945 in bone chilling cold and snow Over four months they were marched west with little food no warm clothing little shelter and no reason to think they might survive However Fred and most of his fellow POWs did survive and in late April 1945 they were liberated and returned to England Somehow Fred Lodge remained the same quiet kind considerate and courageous man he was at the beginning This story as told by Fred Lodge himself is a gripping tale He passed through the hell of war and emerged whole

Theories and Case Studies Garry Wade McGiboney, 2018-07-27 Effective leadership does not occur by chance Leaders must be trained and groomed for the daunting responsibility of leading organizations Research shows that half of the people currently in leadership positions will fail Why they fail and what can be done to prevent failure are the main subjects of this book It shows that effective leadership is possible and illustrates why and how based on research and case studies from an epidemiological perspective The epidemiological word determinant is used frequently and is a word that no other book on leadership uses Epidemiologists work from two basic principles namely that all diseases have determinants and that diseases do not occur randomly In other words there are always causes for diseases and patterns that describe how diseases spread Effective and ineffective leadership always have determinants that are not randomly distributed the impacts are uniformly and deeply spread throughout an organization Like the epidemiologists this book not only identifies leadership determinants but also provides research based antidotes at the end of each chapter along with a summary of the most salient points in the chapter This book offers examples of leadership and governance from the non profit sector businesses public and private education higher education and other organizations highlighting over 50 case studies to illustrate concepts about leadership

The New and Complete Dictionary of the English Language John Ash, 1775 Great Britain and the East, 1916

The Near East, 1916 Belligerent Reprisals Frits Kalshoven, 2005-06-01 Belligerent Reprisals examines the historical developments in the law and practice relating to recourse to belligerent reprisals as a primitive means of law enforcement in the hands of a party to an armed conflict victim of a violation of the law of war at the hands of its enemy As a legal concept the notion means that the victim in turn violates a rule of the same body of the law of war with the purpose of thus inducing the enemy to terminate its unlawful conduct However the enemy may in its turn denounce the so called reprisal as an unlawful act of war and retaliate against it thus setting in motion the ill famed spiral of negative reciprocity While early lawmakers refrained from taking up the issue prohibitions of reprisals could be achieved in conventions adopted in 1929 and 1949 on the protection of the power of the enemy In contrast reprisals or retaliatory conduct announced under that title without meeting the requisite conditions were common practice in the conduct of hostilities with civilians in non occupied territory as the main victims With major governments disinclined to give up this tool the ban on reprisals against civilian populations ultimately accepted in the Protocols of 1977 Additional to the Geneva Conventions of 1949 could only be hard fought and it remains contested to this day First published in 1971 Belligerent Reprisals has become a classic work on this complex topic The analysis of lawmaking and state practice it contains is as valid today as it was in the late 1970 s and elucidates the dilemmas inherent in the notion of belligerent reprisal as a means of law enforcement that can go terribly wrong
