Rupert S Shadow:

Hitchcock's Motifs Michael Walker, 2005 Among the abundant Alfred Hitchcock literature Hitchcock's Motifs has found a fresh angle Starting from recurring objects settings character types and events Michael Walker tracks some forty motifs themes and clusters across the whole of Hitchcock's oeuvre including not only all his 52 extant feature films but also representative episodes from his TV series Connections and deeper inflections that Hitchcock fans may have long sensed or suspected can now be seen for what they are an intricately spun web of cross references which gives this unique artist's work the depth consistency and resonance that justifies Hitchcock's place as probably the best known film director ever The title the first book length study of the subject can be used as a mini encyclopaedia of Hitchcock's motifs but the individual entries also give full attention to the wider social contexts hidden sources and the sometimes unconscious meanings present in the work and solidly linking it to its time and place

The Selected Works of George Alfred Henty George Alfred Henty, You may be told perhaps that there is no good to be obtained from tales of fighting and bloodshed that there is no moral to be drawn from such histories Believe it not War has its lessons as well as Peace You will learn from tales like this that determination and enthusiasm can accomplish marvels that true courage is generally accompanied by magnanimity and gentleness and that if not in itself the very highest of virtues it is the parent of almost all the others since but few of them can be practiced without it The courage of our forefathers has created the greatest empire in the world around a small and in itself insignificant island if this empire is ever lost it will be by the cowardice of their descendants At no period of her history did England stand so high in the eyes of Europe as in the time whose events are recorded in this volume A chivalrous king and an even more chivalrous prince had infected the whole people with their martial spirit and the result was that their armies were for a time invincible and the most astonishing successes were gained against numbers which would appear overwhelming The victories of Cressy and Poitiers may be to some extent accounted for by superior generalship and discipline on the part of the conquerors but this will not account for the great naval victory over the Spanish fleet off the coast of Sussex a victory even more surprising and won against greater odds than was that gained in the same waters centuries later over the Spanish Armada The historical facts of the story are all drawn from Froissart and other contemporary historians as collated and compared by Mr James in his carefully written history They may therefore be relied upon as accurate in every important particular

From Judgment to Passion Rachel Fulton Brown, 2002-12-18 Devotion to the crucified Christ is one of the most familiar yet most disconcerting artifacts of medieval European civilization. How and why did the images of the dying God man and his grieving mother achieve such prominence inspiring unparalleled religious creativity as well such imitative extremes as celibacy and self flagellation? To answer this question Rachel Fulton ranges over developments in liturgical performance private prayer doctrine and art. She considers the fear occasioned by the disappointed hopes of medieval Christians convinced that the apocalypse would come soon the revulsion of medieval Jews at being baptized in the name of God born from a woman the reform of the Church in light of a new European money economy the eroticism of the Marian exegesis of the Song of Songs and much more. Devotion to the crucified Christ is one of the most familiar yet disconcerting artifacts of medieval European civilization. How and why did the images of the dying God man and his grieving mother achieve such prominence inspiring unparalleled religious creativity and emotional artistry even as they fostered such imitative extremes as celibacy crusade and self flagellation? Magisterial in style and comprehensive in scope *From Judgment to Passion* is the first systematic attempt to explain the origins and initial development of European devotion to Christ in his suffering humanity and Mary in her compassionate grief. Rachel Fulton examines liturgical performance doctrine private prayer scriptural exegesis and art in order to illuminate and explain the powerful desire shared by medieval women and men to identify with the crucified Christ and his mother. The book begins with the Carolingian campaign to convert the newly conquered pagan Saxons in particular with the effort to explain for these new converts the mystery of the Eucharist the miraculous presence of Christ's body at the Mass. Moving on to the early eleventh century when Christ's failure to return on the millennium of his Passion A.D. 1033 necessitated for believers a radical revision of Christian history Fulton examines the novel liturgies and devotions that arose amid this apocalyptic disappointment. The book turns finally to the twelfth century when in the wake of the capture of Jerusalem in the First Crusade there occurred the full flowering of a new more emotional sensibility of faith epitomized by the eroticism of the Marian exegesis of the Song of Songs and by the artistic and architectural innovations we have come to think of as quintessentially high medieval. In addition to its concern with explaining devotional change *From Judgment to Passion* presses a second crucial question: How is it possible for modern historians to understand not only the social and cultural functions but also the experience of faith the impulsive engagement with the emotions sometimes ineffable of prayer and devotion? The answer magnificently exemplified throughout this book's narrative lies in imaginative empathy the same incorporation of self into story that lay at the heart of the medieval effort to identify with Christ and Mary in their love and pain.
