Animal Welfare in World Religion Joyce D'Silva, 2023-05-01 This unique and readable book examines the relationship between religion and animal welfare taking a detailed dive into the teachings and practices of the major world religions. While there are many books expounding the beliefs of the major religions and many about the rights and welfare of animals, there are few linking the two. With each chapter focusing on one of the five major religions—Judaism, Christianity, Islam, Hinduism, and Buddhism—the book explores the beliefs and practices which drive our relationship with and treatment of animals. The book draws on the scriptures of the major faiths and includes the voices of leading historical religious figures and contemporary faith leaders. In doing so, it compares the teachings of old with contemporary practices and showcases the impact of the major religions on both the protection and exploitation of animals, from running animal sanctuaries to participating in or condoning cruel sports and factory farming. Importantly, the book also includes a chapter looking beyond the major world religions where it examines a wider range of beliefs and practices, including Indigenous peoples from the USA and Australia, Jainism, Sikhism, and Rastafarianism, to provide fascinating insights into another range of beliefs and views on the human-animal relationship. Overall, this book challenges and encourages religious leaders and followers to re-examine their teachings and to prioritise the well-being of animals. This book is essential reading for those interested in the role of religion in animal welfare, human-animal studies, and animal welfare and ethics more broadly.

On Sympathetic Grounds Naomi Greyser, 2018 *On Sympathetic Grounds* lays out sympathy's vital place in shaping North America. Naomi Greyser intersperses theoretical reflection on the affective production of space with analysis of tales of tears, heart-rending oratory, and emplotment of narrative and land in work by Sojourner Truth, Sarah Winnemucca, Hopkins, Nathaniel Hawthorne, and others. Master Register of Bicentennial Projects, February 1976 American Revolution Bicentennial Administration, 1976

With Good Intentions Celia Haig-Brown, David A. Nock, 2011-11-01 *With Good Intentions* examines the joint efforts of Aboriginal people and individuals of European ancestry to counter injustice in Canada when colonization was at its height, from the mid-nineteenth to the early twentieth century. These people recognized colonial wrongs and worked together in a variety of ways to right them, but they could not stem the tide of European-based exploitation. The book is neither an apologist text nor an attempt to argue that some colonizers were simply well-intentioned. Almost all those considered here—teachers, lawyers, missionaries, activists—had as their overall goal the Christianization and civilization of Canada's First Peoples. While their sensitivity and willingness to work in concert with Aboriginal people made them stand out from their less sympathetic compatriots, they were nonetheless implicated in the colonialist project, as the contributors to this volume make clear. By discussing examples of Euro-Canadians who worked with Aboriginal peoples, *With Good Intentions* brings to light some of the lesser-known complexities of colonization. This volume is an important resource for anyone interested in Canadian history, particularly post-Confederation history, and in Native studies and issues of colonization of Native peoples.
