

adjusting your antenna

The antenna can store up to 100 antenna channels, keyed to channels 2 through 99. Follow these steps to preset a new antenna direction to a channel memory:

1. There are 12 antenna directions available (1 to 12). Position the antenna by pressing $\uparrow$ or $\downarrow$ to obtain the best reception. When connected to a HDTV, adjust the antenna to where the signal strength display on the HDTV tuner indicates the best signal level.

NOTE It takes several seconds for the HDTV tuner to stabilize and produce the best picture.

2. Press $\uparrow$ or $\downarrow$ to select one of the three gain levels. There are three available gain levels you may select manually or with the remote:
Set "GAIN" to "1" for weak or distant stations.
Set "GAIN" to "2" for most stations.
Set "GAIN" to "3" for strong or nearby stations, or when you are not using the antenna.
3. Press and hold **STORE** until CH indicators flashing.
4. Select a channel (same as your TV's channel) to store the antenna direction and gain level by pressing a number between 0 and 99 on the remote, e.g. Press **99** to select channel 9; **91** to select channel 1, etc.
5. Press **STORE** to save the antenna direction, the gain level and the channel number. Once the channel is saved, the indicators will stop flashing to indicate the end of preset mode.

USB display
Indicates the antenna direction and status.

USB indicator
The LED flashes when the remote data is received successfully.

Press and hold to turn off the LCD and backlight. To turn it on, press it again.

- If no key is pressed within 30 seconds after the indicators start flashing, the preset mode will end automatically.
- Under normal operation, the motor gear-box will generate noise when the internal antenna element is moving to a new direction.

recalling the stored antenna angle

You can recall the antenna direction and the gain level previously saved.

Press a channel number between 0 and 99. The antenna will rotate to the selected direction. If there is no previously stored channel, the default setting is "Direction 3" and "Gain 2".

restoring factory default setting

This will clear all the memory and restore to factory default setting.

1. Make sure the DC power adapter is unplugged.
2. Press and hold $\downarrow$ on the antenna base.
3. Plug in the DC power adapter.
4. Default CH 3, Direction 3 and Gain 2 should be shown.

care and maintenance

Keep the antenna dry. If it gets wet, wipe it dry immediately. Use and store the antenna only in normal temperature environments. Handle the antenna carefully: do not drop it. Keep the antenna away from dust and dirt, and wipe it with a damp cloth occasionally to keep it looking new.

Modifying or tampering with the antenna's internal components can cause a malfunction and might invalidate its warranty. If your antenna is not performing as it should, take it to your local RadioShack store for assistance.
