**Teacher TV** Mary M. Dalton, Laura R. Linder, 2008 Teacher TV Sixty Years of Teachers on Television examines some of the most influential teacher characters presented on television from the earliest sitcoms to contemporary dramas and comedies Both topical and chronological the book follows a general course across decades and focuses on dominant themes and representations linking some of the most popular shows of the era to larger cultural themes Some of these include a view of how gender is socially constructed in popular culture and in society racial tensions throughout the decades educational privileges for elite students the mundane and the provocative in teacher depictions on television the view of gender and sexual orientation through a new lens life in inner city public schools the culture of testing and dropping out Every pre service and classroom teacher should read this book It is also a valuable text for upper division undergraduate and graduate level courses in media and education as well

**Teens, TV and Tunes** Doyle Greene, 2014-01-10 This political analysis of teen culture examines the historical and ideological development of American youth society the economic and ideological relationship between television and popular music and the ideological rivalry between Nickelodeon and Disney More than mere entertainment teen sitcoms and pop music portray a complex and often contradictory set of cultural discourses They engage in a process of ideology marketing and hip versus square politics Case studies include *Saved by the Bell* Britney Spears the movie *School of Rock* early pop music sitcoms like *The Monkees* and *The Partridge Family* and recent staples of teen culture such as *iCarly* and *Hannah Montana* What is occurring in teen culture has a crucial bearing as today's teens age into adulthood and become the dominant generation in the impending decades

**Arguing with Numbers** James Wynn, G. Mitchell Reyes, 2021-04-15 As discrete fields of inquiry rhetoric and mathematics have long been considered antithetical to each other That is if mathematics explains or describes the phenomena it studies with certainty persuasion is not needed This volume calls into question the view that mathematics is free of rhetoric Through nine studies of the intersections between these two disciplines *Arguing with Numbers* shows that mathematics is in fact deeply rhetorical Using rhetoric as a lens to analyze mathematically based arguments in public policy political and economic theory and even

literature the essays in this volume reveal how mathematics influences the values and beliefs with which we assess the world and make decisions and how our worldviews influence the kinds of mathematical instruments we construct and accept In addition contributors examine how concepts of rhetoric such as analogy and visuality have been employed in mathematical and scientific reasoning including in the theorems of mathematical physicists and the geometrical diagramming of natural scientists Challenging academic orthodoxy these scholars reject a math equals truth reduction in favor of a more constructivist theory of mathematics as dynamic evolving and powerfully persuasive By bringing these disparate lines of inquiry into conversation with one another *Arguing with Numbers* provides inspiration to students established scholars and anyone inside or outside rhetorical studies who might be interested in exploring the intersections between the two disciplines In addition to the editors the contributors to this volume are Catherine Chaput Crystal Broch Colombini Nathan Crick Michael Dreher Jeanne Fahnestock Andrew C Jones Joseph Little and Edward Schiappa *Advertising and Societies* Katherine Toland Frith, Barbara Mueller, 2010 Now in its second edition *Advertising and Societies Global Issues* provides an international perspective on the practice of advertising while examining some of the ethical and social ramifications of advertising in global societies The book illustrates how issues such as the representation of women and minorities in ads advertising and children and advertising in the digital era have relevance to a wider global community This new edition has been updated to reflect the dramatic changes impacting the field of advertising that have taken place since publication of the first edition The growing importance of emerging markets is discussed and new photos are included The book provides students and scholars with a comprehensive review of the literature on advertising and society and uses practical examples from international media to document how global advertising and global consumer culture operate making it an indispensable research tool and invaluable for classroom use *Accept What Happens* Tori Puzzlewood, 2023-04-18 Author Tori Puzzlewood got advice from one of her eighth grade teachers She told her to write down what was going on with her and learn how to express herself through writing She suggested that Tori should write down what was going on with her So as she entered high school that's what Tori Puzzlewood did Throughout the years of her high school life Tori had dealt with many teenage things depression suicidal thoughts sexuality education drama romantic relationship friendship friendship ending anxiety toxic relationship etc She also witnessed some things that people around her were going through Tori had to learn and understand everything she was going through and what life around her was like No one ever really told her about the emotional part of high school that teenagers go through All they talked about was the academic part She learned life isn't easy Things happen to you people come and go in your life and that's okay Overall she understood everybody goes through things Everybody has a story and this is hers *Historical Dictionary of African American Television* Kathleen Fearn-Banks, Anne Burford-Johnson, 2014-10-03 From *Amos n Andy* to *The Jeffersons* to *Family Matters* to *Chappelle's Show* this volume has all different genres animation documentaries sitcoms sports talk shows and variety shows and performers

such as Muhammad Ali Louis Armstrong Bill Cosby and Oprah Winfrey Additionally information can be found on general issues ranging from African American audiences and stereotypes through the related networks and organizations This second edition covers the history of African Americans on television from the beginning of national television through the present day including chronology introductory essay appendixes bibliography over 1000 cross referenced entries on actors performers producers directors news and sports journalists entries on series specials and movies relevant to African American themes and African American casts This book is an excellent access point for students researchers and anyone wanting to know more about the history of African Americans and their impact on television

**Packaging Boyhood** Sharon Lamb, Ed.D., Lyn Mikel Brown, Ed.D., Mark Tappan, Ed.D., 2009-10-13 Player Jock Slacker Competitor Superhero Goofball Boys are besieged by images in the media that encourage slacking over studying competition over teamwork power over empowerment and being cool over being yourself From cartoons to video games boys are bombarded with stereotypes about what it means to be a boy including messages about violence risktaking and perfecting an image of just not caring Straight from the mouths of over 600 boys surveyed from across the U S the authors offer parents a long hard look at what boys are watching reading hearing and doing They give parents advice on how to talk with their sons about these troubling images and provide them with tools to help their sons resist these messages and be their unique selves

*Bullies and Mean Girls in Popular Culture* Patrice A. Oppliger, 2013-10-03 The numerous anti bullying programs in schools across the United States have done little to reduce the number of reported bullying instances One reason for this is that little attention has been paid to the role of the media and popular culture in adolescents bullying and mean girl behavior This book addresses media role models in television film picture books and the Internet in the realm of bullying and relational aggression It highlights portrayals with unproductive strategies that lead to poor resolutions or no resolution at all Young viewers may learn ineffective even dangerous ways of handling aggressive situations Victims may feel discouraged when they are unable to handle the situation as easily as in media portrayals They may also feel their experiences are trivialized by comic portrayals Entertainment programming aimed particularly at adolescents often portray adults as incompetent or uncaring and include mean spirited teasing In addition overuse of the term bully and defining all bad behavior as bullying

may dilute the term and trivialize the problem
