Needs Assessment Resources

In last month's **newsletter**, we focused on comprehensive longitudinal data systems (CLDS), as well as the goals and next steps of the system. Three more Promise Neighborhoods are deep in the process of conducting the needs assessment; this newsletter shares promising practices and a few resources to support the process of conducting a needs assessment. The first column of the **Journal of Community Improvement** (JCI) focused on gathering and using data for the needs assessment, and included perspectives from Jennifer Cooney of the Urban Institute and Steve Spitzer of the Urban Strategies Council. Additional resources will become available regarding needs assessment and data collection through collaborations in the National Neighborhood Indicators Partnership as well as OII's initiative. As mentioned in the previous Neighborhood Watch, Francis Lurie, author of the *Building Communities That Work*, provided a quick, annotated guide based on reviews of the current literature, interviews with national experts, and interviews with one of the 11 Promise Neighborhoods grantees. Also check out page 1 of this newsletter for needs assessment promising practices from the *Do-It-Yourself Promise Neighborhood* and the *Building Communities That Work*.

Community of Practice in Massachusetts

The three Promise Neighborhoods planning grantees in Massachusetts, the **Commonwealth Center for Student Success**, **South Shore Developmental Institute**, and the **United Way of Central Massachusetts**, have been working closely together since the Promise planning grant was announced in September 2010. From their own under the direction of Michael Chertok, the State's Commissioner of Elementary and Secondary Education to align these efforts across the state, and then continued in concert by phone.

A study visit of three building a community of practice and connecting as a group with state resources is a recent manifestation of a State early-learning grant opportunity that will support the efforts to engage "lead research" facilities. The grant opportunity is limited only to the three PII planning grantees. On April 8, the three organizations will also participate in a Boston Promise Community to explore the important role of community in making positive change in urban neighborhoods.

F.A.Q. CENTRAL

- Q: What is a Promise Neighborhoods planning grant for youth to plan or "scale up" existing efforts through outreach to expand activities beyond the geographic area that application is currently serving?
- A: Yes. An applicant that has been serving children, and has already achieved significant results with these children, in a target geographic area prior to applying for a Promise Neighborhoods planning grant that propose to use planning grant funds to develop a plan to expand services and scale up beyond the initial area to serve children in a new neighborhood. An applicant proposing to plan to "scale up" existing activities in a new neighborhood must provide at least one representative of each the providers of that use of the planning grant; the applicant's proposed expansion of activities in the geographic area proposed to be served.

UPCOMING EVENTS

April 14: Youth Violence Summit

The goal of the Summit is to reduce violence, improve opportunities for youth, and encourage innovation at both local and national levels.

April 22: Promise Neighborhoods Session at National Education Conference

April 22: Deadline For OIG's Conference Proposals

The U.S. Department of Education's Office of Education and Drug-Free Schools (OEDFS) is accepting proposals for workshops and sessions to be presented at the 2011 OIG's National Conference to be held August 8-10 at the National Harbor, MD. The conference theme is "Making the Connection: Creating and Maximizing Conditions for Learning." All proposals and questions about the conference may be submitted by email to edconf@ed.gov.

TIP OF THE MONTH:

Promise Neighborhoods teams may choose how to begin with graduation and other school-report activities. The activity supports community engagement and increases awareness of Promise Neighborhoods.

Why Do Students Drop Out?

There is a consensus that these four indicators are the most telling:

- **GRADE RETENTION - RISK**
- **"BELL RING" OR OVERSIGHT**
- **MISSING ASSIGNMENTS**
- **MISSING ASSIGNMENTS**
- **FAILURE TO MAKE ACADEMIC GAINS**

Diploma: It's More Than A Piece Of Paper

A drop-out factory is a high school where as many as 40 percent of the students who start as freshmen walk out their senior year. Most drop-out factories are in large cities in rural areas where poverty rates are high. A majority of the Promise Neighborhoods include schools that have higher than average drop-out rates. In fact, according to a 2009 study conducted by America's Promise Alliance, the graduation rates vary significantly in cities that are home to more Promise Neighborhoods programs and the surrounding suburbs. The city-suburb difference is considerable in New York (28.4% vs. 67%), Boston (27%), Philadelphia (21.4%), Los Angeles (18.7%), and Atlanta (18.7%).

Last month, the Baltimore Education Research Consortium (BERC) released a report titled *Declining Graduation*.

Each Grade Early Warning Indicator for Baltimore City Schools: Data For Schools and Regions. Why should we pay attention to what a Baltimore study reveals? The Baltimore Public Schools had the second largest disparity in graduation rates at 40%.

BERC also identified each grade as being a critical intervention point where many drop out programs are geared towards eighth and ninth graders.

America's Promise Alliance recently launched *Declining Graduation* which is a balance effort to end the high school drop-out crisis in the U.S.

More Promise Neighborhoods grantees have ideas about how to address drop-out rates. One week towards ending the cycle of poverty in your neighborhood, reach out to one teacher and share your best practices. Realize that drop-out impact more than just your own neighborhood.
