Yao and Artusio's Anesthesiology Fun-Sun F. Yao,Manuel L. Fontes,Vinod Malhotra,2012-01-18 Yao and Artusio s Anesthesiology is one of the core texts for anesthesiology residents and is frequently used as a primary study aid for the ABA oral boards Each chapter is based on a case history and questions that address disease knowledge and differential diagnosis progressing through preoperative evaluation intraoperative management and postoperative care The discussion of each question is followed by a short list of the most important references on that topic The new edition is in full color and the interior has been redesigned to make it easier to read There is a new section on pediatric anesthesia All major areas of anesthesiology are covered

VisualDx: Essential Dermatology in Pigmented Skin Aída Lugo-Somolinos,2012-03-29 VisualDx Essential Dermatology in Pigmented Skin combines a desk reference and a powerful online decision support system to give you point of care assistance in diagnosing and managing skin diseases in darkly pigmented skin The book is written and edited by clinicians with extensive experience caring for patients with pigmented skin including Hispanics African Americans and diverse patients from many countries It features

over 700 full color illustrations depicting the distinctive presentations of skin diseases in adults and children with darkly pigmented skin. These illustrations are valuable aids to both diagnosis and patient teaching because they show patients how the disease appears in skin types resembling their own pigmentation. The text is organized by skin lesion morphology to assist the differential diagnostic process. It covers 195 skin disorders with illustrations and succinct text on visual signs and symptoms, diagnostic pearls, best laboratory tests, differential diagnosis, and treatment. An additional chapter covers dermatologic therapy. The online clinical decision support system can be accessed on a desktop computer, laptop, tablet, or mobile device. It enables you to search by patient findings such as visual clues, signs, and symptoms, medications, medical history, and travel history to build a custom differential diagnosis. Thousands of images show both typical and variant disease presentations. Patient information sheets are also included.
