 society faces a choice We could be enjoying a sustainable lifestyle but we have chosen not to In three generations we have
 consumed half the oil produced by photosynthesis over eight million generations In two generations we have used half our
 uranium resources With threats from global warming oil depletion and nuclear disaster we are running out of options Solar
 power as Keith Barnham says is our necessary solution Barnham explains that the roots of solar energy lie in a little known
 equation $E = hf$ an equation which was coincidentally celebrated and explained to the world by Einstein in the same year he
 discovered $E = mc^2$ He alleges that the former equation has been overlooked in favor of the latter much to our detriment and
 Barnham is here to offer us a solution We can still turn things around and solar energy is the key In this provocative inspiring
 passionately argued book Keith Barnham outlines actions that any one and all of us can take to make an impact now and on
 future generations The Burning Answer is a solar manifesto for the new climate aware generation and a must read for
