and Extensions of Time are highly regarded as a guide for both construction industry professionals and lawyers to this complex area. The law on time and damages continues to develop with an increasing flow of judgments from the courts. Alongside this, the standard forms of contract have also developed over time to reflect prevailing approaches to contractual relationships. Against this background, a third edition will be welcomed by construction professionals and lawyers alike. Retaining the overall approach of the previous editions, the author clarifies in a highly readable but legally rigorous way the many misunderstandings on time and damages which abound in the construction industry. The third edition takes account of a large volume of new case law since the previous edition was published over ten years ago, includes a new chapter on delay analysis and features significantly expanded chapters on penalty clauses, the effects of conditions precedent and time bars and the complexities of causation.

Construction Cost Management Keith Potts, Nii Ankrah, 2008-04-30. The Latham and Egan Reports have seen some significant changes in the role of the construction cost manager. Keith Potts examines the key issues and best practice in the cost management of construction projects under traditional contracts and new methodologies. All stages within the life cycle of a project are considered from pre contract to tendering and post contract.

International Construction Law Wendy Kennedy Venoit, 2009. A roadmap to the most important ethical considerations facing legal practitioners in multi jurisdictional construction practice.

Building Law Encyclopaedia David Chappell, Michael H. Dunn, Michael Cowlin, 2009-11-06. Building Law Encyclopaedia is a concise and authoritative reference providing information in reasonable depth on an extensive number of legal terms, principles, phrases and issues that are commonly encountered in the construction industry. Most standard contracts are referred to, including the current suite of JCT Contracts, SBC, IC, ICD, MW, MWD as well as ACA, PPC 2000, GC Works 1 and NEC. In addition, some contracts which are theoretically out of date but which are still in common use are also covered. With over 1050 entries and numerous cross references, it will be an invaluable reference for architects, quantity surveyors, project managers and contractors. With detailed reference to appropriate case law and legislation, construction lawyers will also find it of considerable value in the course of their work.
