

# LEARNING NEEDS ANALYSIS (LNA)

IN HIGH RISK INDUSTRIES

## Establish context

- How has the learning need been identified?
- Who triggered the analysis?
- What is the business risk or opportunity?
- How does it align with business goals?

## Assess capability gaps

- What skills, knowledge and behaviours are at full maturity?
- Which are at risk of extinction?
- Which pose a threat to business?

## Design solution

- What mode of training will ensure knowledge retention?
- Is the performance issue skill-based, knowledge-based or behavioural?
- How many learners could benefit from this solution, and how does that impact resources?

**How Finns Learn Mathematics and Science**, 2007-01-01 The Finnish students success in the first PISA 2000 evaluation was a surprise to most of the Finns and even people working in teacher education and educational administration had difficulties to believe that this situation would continue Finland s second success in the next PISA 2003 comparison has been very pleasing for teachers and teacher educators and for education policymakers The good results on the second time waked us to think seriously on possible reasons for the success Several international journalists and expert delegations from different countries have asked these reasons while visiting in Finland Since we had no commonly acceptable explanation to students success we decided at the University of Helsinki to put together a book How Finns Learn Mathematics and Science in order to give a commonly acceptable explanation to our students success in the international PISA evaluations The book tries to explain the Finnish teacher education and school system as well as Finnish children s learning environment at the level of the comprehensive school and thus give explanations for the Finnish PISA success The book is a joint enterprise of Finnish

teacher educators The explanations for success given by altogether 40 authors can be classified into three groups Teacher and teacher education school and curriculum and other factors like the use of ICT and a developmental project LUMA The main result is that there is not one clear explanation although research based teacher education seems to have some influence But the true explanation may be a combination of several factors

**Early Learning through Play** Kristin Grabarek, Mary R. Lanni, 2019-03-13 This creative guidebook teaches librarians in diverse communities how to develop and implement early learning programming beyond traditional storytimes While traditional library storytimes are excellent tools for families equally important is play Children learn through play in many ways it stimulates exploration and curiosity and builds gross and fine motor skills that are critical to reading and writing success Perhaps most importantly play has the power to cross barriers of culture and language allowing families from differing backgrounds to learn together In this book Kristin Grabarek and Mary R Lanni the pioneers of Little University an early learning program that focuses on play based learning share their experiences and provide guidance for implementing similar programs at libraries of various sizes and budgets They teach readers how to create programs for a diverse group of families work with outside providers choose supplies estimate costs market your programming and overcome the challenges of both big and small budgets and many or few patrons These practical plans will enhance storytimes and even help build a brand new early learning program

**Project-Based Learning Applied to the Language Classroom** Juliana Franco Tavares/ Louise Emma Potter, 2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language

The HM Learning and Study Skills Program Judy Tilton Brunner,Matthew S. Hudson,2013-11-21 The hm Learning and Study Skills Program Level II was designed to provide an introduction to learning and study skills for 8th 9th and 10th grade students through a series of activity oriented units The Level IITeacher s Guide includes a pretest a wide variety of teaching suggestions unit summaries activities for retrieval and closure as well as teaching adaptations through the use of technology It was published to help teachers assist students in the development of essential study skills and to reinforce their existing strategies that work It is structured on the assumption that an activity oriented lesson is the most effective instructional strategy for the teaching of study skills Or more succinctly that learning by doing is the best way to study smart      Quality Assurance and Accreditation in Distance Education and e-Learning Insung Jung,Colin Latchem,2012-04-05 Quality assurance QA in open and distance learning ODL can be a contentious issue Some argue that it should be judged by the same criteria and methods as face to face education while others claim that it is so different in its organization enrolments and operations that conventional QA mechanisms cannot apply Some advocate the use of specific guidelines and standards for e learning others believe that regardless of the technology the basic principles of quality teaching and learning should apply Providers who have enjoyed freedom from external scrutiny may resist attempts at external regulation and auditing and look upon QA as yet another imposition of corporatization and bureaucracy on education Others see it as a means of establishing a culture of quality self reflection and self improvement There is little research based literature to guide policy makers managers and

practitioners in applying QA in education and training to ensure the right balance is found between accountability and autonomy as well as assuring quality for the time and costs involved In this respect Quality Assurance and Accreditation in Distance Education and e Learning is a book that is long overdue It explains what is involved in QA and accreditation in education It describes and analyzes applications of these practices in open distance dual mode and conventional universities throughout Europe North America Africa and the Asia Pacific looking at open schooling e learning in conventional schools non formal adult and community education and corporate and small to medium enterprises Quality Assurance and Accreditation in Distance Education and e Learning is edited and authored by experts with extensive international experience in ODL e learning and QA who give careful consideration to the possibilities and challenges involved The book will be an invaluable guide for all policy makers managers practitioners and researchers in the field
