

Unit of Study: Volleyball Lesson Topic: Overhead pass
Learning Objective (Teaching Point): I will learn how to use the overhead pass in volleyball.
National Physical Education Standard 1: Demonstrates competency in motor skills and movement patterns needed to perform a variety of physical activities.
Academic and Content Vocabulary: Shamino-Four ability to run or play for a long time without getting tired. Penalty-A disadvantage given to a team for breaking a rule.
Materials/Resources: Volleyballs, nets, beach balls and cones
Motivation/Connection: Volleyball is one of the primary recreational activities played in Corona. Students will be asked what experience they have with volleyball in their community. A brief conversation that discusses the excitement when playing volleyball with family and friends will create excitement for today's activity.
Prerequisite Skills: Students have participated in various activities, which focus on coordination.
Learning Plan/Class Activity (Main Activity): After a brief aerobic warm up students will be divided into four teams. We will work on the overhead pass today. In volleyball, we use the overhead pass when we want to pass the ball to a teammate or set them up for a spike. Today, when you are preparing for the overhead pass make a triangle with your hands by bringing them together (student-teacher demonstration will take place here). Get underneath the ball when it is in the air, bend your knees as the ball approaches you and see the ball through your triangle. Strike the ball and follow through by opening your arms up. Students will first have a lead up round, which will require them to simply throw the ball over the net to acquire the motion of the overhead pass. The second round will require students to hit the ball over the net six times with a partner, utilizing the overhead pass. The final round will have a competitive nature, and will require students to hit the ball over the net as many times as possible, as long as the ball doesn't hit the floor. When the ball makes contact with the floor or a student catches it their turn is over.
Higher Order Thinking Question(s): How much time do you think that an Olympic athlete has to practice in preparation for the Olympics?
Differentiated Instruction: -Athletes above grade level will be challenged to complete two extra overhead pass strikes during round two. -Athletes on grade level will improve their overhead pass skills by following instructions from the learning plan. -Athletes below grade level will be intermixed with above grade level athletes. Selected below grade level athletes will receive specific instruction and motivation from teacher.
Closure (Culminating Activity): Selected students will participate in an overhead pass contest. Students will share what they have learned today.
Assessment: Students will be assessed visually and through assessment sheets.
