The State of Conservation Joshua Nygren, 2025-01-06 In the twentieth century natural resource conservation emerged as a vital force in US politics laying the groundwork for present day sustainability Merging environmental agricultural and political history Joshua Nygren examines the political economy and ecology of agricultural conservation through the lens of the conservation industrial complex This evolving public private network which united the US Department of Agriculture Congress local and national organizations and the agricultural industry guided soil and water conservation in rural America for much of the century Contrary to the classic tales of US environmental politics and the rise

and fall of the New Deal Order this book emphasizes continuity Nygren demonstrates how the conservation policies programs and partnerships of the 1930s and 1940s persisted through the age of environmentalism and how their defining traits anticipated those typically associated with late twentieth century political culture The conservation industrial complex promoted a development oriented brand of conservation that aided the rise of large scale capital intensive agriculture which continues today It also reshaped the physical and political landscapes of the country leading to impressive conservation victories and spectacular failures by privileging some environments degrading others and intensifying farm depopulation In the name of environmental protection agricultural conservation made rural America less equal **Чипова війна** Кріс Міллер, 2024-08-15 **Nature** Sir Norman Lockyer, 1940 Psychology in Everyday Life David G. Myers, 2014-01-20 David Myers briefest introduction to psychology speaks to all students regardless of their background or level of preparedness with no assumptions made in the vocabulary examples or presentation Students of all kinds are comfortable with Myers manageable chapters which include careful connections to associated visuals comparative tables and research based pedagogy For this edition there is something completely new to a Myers text David Myers personally selected new coauthor Nathan DeWall s enthusiasm for teaching and writing about psychological science makes him uniquely suited to join the worlds bestselling psychology textbook author And with about 30 more pages of coverage this edition has become an even stronger and more complete introduction to the science of psychology for courses of all kinds
