**Gun Violence, Disability and Recovery** Cate Buchanan, Editor, 2014-01-24 Gun violence intentional self directed or accidental is a profoundly traumatic experience From physical injuries to unseen psychological scars and permanent impairments it irrevocably changes people's lives Gun violence does not just the individual shot or threatened Secondary victimisation also includes relatives friends colleagues caregivers and perhaps controversially perpetrators themselves Gun Violence Disability and Recovery provides the first overview of the rights and needs of survivors of gun violence The collection contains contributions from gun violence survivors trauma surgeons disability rights activists rehabilitation specialists violence prevention and reduction experts development practitioners and gender justice advocates From countries with low resource levels to those already equipped with state of the art rehabilitation centres this innovative publication provides policymakers practitioners government officials and donors with timely analysis on what could be done differently to meet the needs and rights of survivors of gun violence This volume speaks to me both as a government official and as a survivor of gun violence I know first hand how painful the aftermath of such a life changing event can be But I also know it is possible to recover and make a positive difference in society I hope this book will inspire other survivors to follow this path

Len n Moreno Garc s Vice President Ecuador Little attention has been

paid to the fact that for every person killed by gun violence as many as six victims will survive often with severe disabilities. The long term physical and psychological damage, social and economic impacts can no longer be overlooked. Bringing together voices of survivors as well as health, medical, rehabilitation and legal concerns, this book represents a significant step forward, outlining key issues for policy, practice and intervention. It is a must read for anyone concerned about human rights and violence, and that should mean all of us.

Nora Ellen Groce, Director, Leonard Cheshire Disability Inclusive Development Centre, University College London, UK

Every year, hundreds of thousands of victims of gun violence, together with their families, experience the real costs of the availability and misuse of arms in our communities. For these victims to attain their basic human rights, so often denied them, we need a better understanding of their predicament, challenges and needs. *Gun Violence, Disability and Recovery*, with its comprehensive overview and analysis, will critically inform our efforts to develop and implement better policies and practices to enhance the realisation of the rights of survivors of armed violence, including implementation of the Arms Trade Treaty.

Espen Barth Eide, former Minister of Foreign Affairs, Norway

The reality of survivors of gun violence, my reality, is so often lost in narrow political and economic interests. This volume gives me hope that attention to life after gun violence will begin to receive long overdue attention and contribute to the long haul effort of improving services for survivors as well as working towards accountability about the arms trade.

Shelley Barry, filmmaker, South Africa

International development goals, including the Millennium Development Goals, will not be achieved if the rights of people with disabilities are not met. Through a broad range of case studies and examples from low and middle income countries, this book shows us how States could do better. Let us hope that its message is heard. As a
