Administration,2003-08-18 Like its constituent agencies and other organizations the federal government generates and increasingly saves a large and growing fraction of its records in electronic form Recognizing the greater and greater importance of these electronic records for its mission of preserving essential evidence the National Archives and Records Administration NARA launched a major new initiative the Electronic Records Archives ERA NARA plans to commence the initial procurement for a production quality ERA in 2003 and has started a process of defining the desired capabilities and requirements for the system As part of its preparations for an initial ERA procurement NARA asked the National Academies Computer Science and Telecommunications Board CSTB to provide independent technical advice on the design of an electronic records archive including an assessment of how work sponsored by NARA at the San Diego Supercomputer Center SDSC helps inform the ERA design and what key issues should be considered in ERA s design and operation Building an Electronic Records Archie at the National Archives and Records Administration provides preliminary feedback to NARA on lessons it should take from the SDSC work and identifies key ERA design issues that should be addressed as the ERA procurement process proceeds in 2003 *Keep Watching the Skies!* W. Patrick McCray,2021-08-10

When the Soviets launched Sputnik in 1957 thousands of ordinary people across the globe seized the opportunity to participate in the start of the Space Age Known as the Moonwatchers these largely forgotten citizen scientists helped professional astronomers by providing critical and otherwise unavailable information about the first satellites In *Keep Watching the Skies* Patrick McCray tells the story of this network of pioneers who fueled by civic pride and exhilarated by space exploration took part in the twentieth century s biggest scientific endeavor Around the world thousands of teenagers homemakers teachers amateur astronomers and other citizens joined Moonwatch teams Despite their diverse backgrounds and nationalities they shared a remarkable faith in the transformative power of science a faith inspired by the Cold War culture in which they lived Against the backdrop of the space race and technological advancement ordinary people developed an unprecedented desire to contribute to scientific knowledge and to investigate their place in the cosmos Using homemade telescopes and other gadgets Moonwatchers witnessed firsthand the astonishing beginning of the Space Age In the process these amateur scientists organized themselves into a worldwide network of satellite spotters that still exists today Drawing on previously unexamined letters photos scrapbooks and interviews *Keep Watching the Skies* recreates a pivotal event from a perspective never before examined that of ordinary people who leaped at a chance to take part in the excitement of space exploration

Scientists in the Classroom J. Rudolph,2002-05-02 During the 1950s leading American scientists embarked on an

unprecedented project to remake high school science education Dissatisfaction with the soft school curriculum of the time advocated by the professional education establishment and concern over the growing technological sophistication of the Soviet Union led government officials to encourage a handful of elite research scientists fresh from their World War II successes to revitalize the nations science curricula In *Scientists in the Classroom* John L Rudolph argues that the Cold War environment long neglected in the history of education literature is crucial to understanding both the reasons for the public acceptance of scientific authority in the field of education and the nature of the curriculum materials that were eventually produced Drawing on a wealth of previously untapped resources from government and university archives Rudolph focuses on the National Science Foundation supported curriculum projects initiated in 1956 What the historical record reveals according to Rudolph is that these materials were designed not just to improve American science education but to advance the professional interest of the American scientific community in the postwar period as well
