

# Universal Brake Light Modulator Wiring Diagram

\*\*Picture of harness for connector reference only, please refer to wiring diagram for pin locations\*\*

\*\*Picture of Brake Light Modulator main connector depicting input and output wire colors

\*Please note: since the running light signal (brown wire from bike) is not affected by the modulator, it is not necessary to cut and can be left out of the brake light modulator harness entirely if you so choose. If the brown running light wire is cut and crimped into the harness, the blue wire will carry the signal through to the taillight leaving it unaffected by the modulator unit.
