Harley Parker Gary Genosko, 2025-08-25 This is the first book about the life and work of Harley Parker 1915 1992 Canadian museum exhibition designer typographer and painter As friend and collaborator of media luminary Marshall McLuhan Parker's influence extended far beyond the realm of art In this groundbreaking intellectual biography Genosko shows that Parker's unique perspective on museums is based on his application of McLuhan's medium theory to exhibition design His emphasis on the role of the senses anticipated much of contemporary sensory studies which will bring his work into focus for a new generation of scholars A highlight of Parker's career as Head of General Display at Toronto's Royal Ontario Museum 1957 1968 was his Hall of Invertebrate Fossils which opened to considerable acclaim in early 1967 That same year he mounted a multimedia gallery at the Museum of the City of New York These milestones underscore Parker's profound impact on museum studies and communication theory Central to this comprehensive study is the rediscovery of Parker's lost manuscript *The Culture Box* which would have confirmed his role as a central figure in the Toronto School of Communication had it not been lost for some fifty years Scholars in communication cultural and museum studies will benefit from this exploration of Parker's thought as will those interested in sensory studies and the enduring value of McLuhan's ideas
