the recent making available to the public of his extraordinary personal library of some six thousand books enables new kinds of analyses of McLuhan as a reader thinker and cultural force The essays here focus not so much on his media theory per se as on the habits and practices that animated his reading and on the larger questions of what reading and not reading mean We don't need to agree with everything McLuhan says to make valuable use of his work New resources offer us an unprecedented opportunity to revisit one fallible human reader whose texts and ideas are good to think with and against This book was originally published as a special issue of the journal *Textual Practice* *Nonprofit Organizations and Civil Society in the United States* Kelly LeRoux, Mary K. Feeney, 2014-11-13 LeRoux and Feeney's *Nonprofit Organizations and Civil Society in the United States* makes a departure from existing nonprofit texts on the market rather than focus on management it focuses on nonprofit organizations and their contributions to the social political and economic dimensions of society The book also covers the nexus between nonprofits and civil society This text offers a theory oriented undergraduate introduction to the nonprofit field and an examination of the multifaceted roles these organizations play in American society **Reader's Guide to the Social Sciences** Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense
