Monitor log backup and restore UNIX Review ,1993-07 **Endless Holocausts** David Michael Smith,2023-01-01 An
argument against the myth of American exceptionalism Endless Holocausts Mass Death in the History of the United States
Empire helps us to come to terms with what we have long suspected the rise of the U S Empire has relied upon an almost
unimaginable loss of life from its inception during the European colonial period to the present And yet in the face of a series
of endless holocausts at home and abroad the doctrine of American exceptionalism has plagued the globe for over a century
However much the ruling class insists on U S superiority we find ourselves in the midst of a sea change Perpetual wars
deteriorating economic conditions the resurgence of white supremacy and the rise of the Far Right have led millions of

people to abandon their illusions about this country Never before have so many people rejected or questioned traditional platitudes about the United States In *Endless Holocausts* author David Michael Smith demolishes the myth of exceptionalism by demonstrating that manifold forms of mass death far from being unfortunate exceptions to an otherwise benign historical record have been indispensable in the rise of the wealthiest and most powerful imperium in the history of the world At the same time Smith points to an extraordinary history of resistance by Indigenous peoples people of African descent people in other nations brutalized by U S imperialism workers and democratic minded people around the world determined to fight for common dignity and the sake of the greater good
