Animal behavioral problems arise out of owners not understanding dog language or cat language and misunderstanding normal animal behavior. Training a dog helps stop dog barking, for instance, while behavior modification redirects cat clawing, but this book explains why dogs bark and the reason cats scratch. Scratching behavior is normal. Understand and manage your pet friends, whether you have a single pet, a clowder of cats, or a canine pack, or one or more of both cats and dogs. Step by step, cat and dog tips from this award-winning author and certified animal behavior consultant use pet psychology to address cat aggression and aggressive dog behavior, cat bites and dog bites, disputes over territory, cat stress and feline fear, scared dogs, noise phobias, thunderstorm, fireworks fears, separation anxiety, destructive behaviors, potty problems, marking behaviors, meal management, resource guarding of toys, food, owners' best pet friend choices to reduce cat fights and dog fights, introductions to other pets, babies, kids, effective techniques for crate training, cat leash training, clicker training, eating poop, cat clawing, dog barking, meowing, destructive chewing, jumping up, countertop, cruising, digging, and more.
