The Boy Who Cried Wolf

A boy named John was once taking care of some sheep not far from a forest. Nearby was a village, and he was told to call for help if there was any danger.

One day, he thought he would have some fun, and he cried out with all his might, "The wolf is coming! The wolf is coming!" The men came running with clubs and axes to save the boy from the wolf. As they saw nothing, they went home again and left John laughing in his sleeve.

The day before he had had so much fun, John cried out again the next day, "The wolf! The wolf!" The men came again. This time not as many as the first time. Again they saw no trace of the wolf, so they shook their heads and went back.

On the third day, the wolf came in earnest. John cried in dismay, "Help! Help! The wolf! The wolf!" Not a single man came to help him. The wolf broke into the flock and attacked the sheep. Among them was a beautiful lamb that belonged to John. Then he felt very sorry that he had deceived his friends and neighbors, and he grieved over the loss of his pet lamb.

The truth itself is not believed from one who often has deceived.

Kennedy,2018-10-04 Of the many issues facing special education and general education today it is difficult to imagine one more important or timely than response to intervention RTI Almost overnight RTI has become standard practice across the nation Unfortunately RTI remains ill defined falls far short of its evidence based practice goal is almost invariably misused and often results in more harm than good Nevertheless as a conceptual framework RTI has great potential for ensuring that students with disabilities receive appropriate evidence based instruction The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention RTI and its relation to multi tiered systems of support MTSS in both special education and general education Although the two terms are currently used interchangeably distinct differences exist between them Therefore chapters are dedicated to distinguishing the two concepts RTI and MTSS and describing each one s unique role in both general and special education In addition the authors recommend a third term Multi Tiered Instruction to differentiate the practices related to the purpose of the specific intervention **Educart CBSE**
