

--	--	--	--	--	--	--	--	--	--

Eighth Semester B.E. Degree Examination, June/July 2018
Real Time Operating Systems

Time: 3 hrs.

Max. Marks: 100

*Note: Answer any FIVE full questions, selecting
at least TWO questions from each part.*

PART – A

1.
 - a. Write any six key features that an RTOS should have. (06 Marks)
 - b. Explain briefly the history of embedded systems and write the pseudo code for basic real time service. (08 Marks)
 - c. Differentiate between pre-emptive and non-pre-emptive scheduling. (06 Marks)
2.
 - a. Using service utility function differentiate between the following. Also give an example for each:
 - (i) Hard real time service and isochronous service. (10 Marks)
 - (ii) Soft real time service and anytime service.. (10 Marks)
 - b. Write the state transition diagram and state transition table for a thread of execution including all possible states. (10 Marks)
3.
 - a. Explain RM-LUB sufficient feasibility test by taking the example of two services. (10 Marks)
 - b. Describe the algorithms for determination of N and S feasibility. (10 Marks)
4.
 - a. Explain the worst case execution time of a service. (10 Marks)
 - b. Explain execution efficiency and pipelining concept. (10 Marks)

PART – B

5.
 - a. Explain the dead lock and live lock. (10 Marks)
 - b. What is priority inversion? How an unbounded priority inversion can be converted to a bounded one. (10 Marks)
6.
 - a. Explain briefly the mixed hard and soft real time services. (10 Marks)
 - b. Describe the 3 Firmware components and any 3 RTOS system software mechanisms. (10 Marks)
7.
 - a. Explain the basic concepts of drill down tuning. (10 Marks)
 - b. Explain method to find path length, efficiency and calling frequency using C code to compute Fibonacci sequence. (10 Marks)
8.
 - a. With the help of a block diagram, explain low-end PIC micro MCU programmer. (12 Marks)
 - b. Write note on RTOS based digital clock and thermometer. (08 Marks)

Real Time Operating System Question Papers 10ec842

Rohit Khurana

Real Time Operating System Question Papers 10ec842:

Hands on Operating Systems 1500 MCQ Harry Chaudhary.,2018-08-15 Our 1500 Operating Systems questions and answers focuses on all areas of Operating Systems subject covering 100 topics in Operating Systems These topics are chosen from a collection of most authoritative and best reference books on Operating Systems One should spend 1 hour daily for 15 days to learn and assimilate Operating Systems comprehensively This way of systematic learning will prepare anyone easily towards Operating Systems interviews online tests examinations and certifications You can watch basic Operating Systems video lectures by visiting our YouTube channel IT EXAM GURUJI Highlights 1500 Basic and Hard Core High level Multiple Choice Questions Answers in Operating Systems with explanations Prepare anyone easily towards Operating Systems interviews online tests Government Examinations and certifications Every MCQ set focuses on a specific topic in Operating Systems Who should Practice these Operating Systems Questions Anyone wishing to sharpen their skills on Operating Systems Anyone preparing for aptitude test in Operating Systems Anyone preparing for interviews campus off campus interviews walk in interview company interviews Anyone preparing for entrance examinations and other competitive examinations All Experienced Freshers and Students Inside Operating System Basics 6 Processes 8 Process Control Block 10 Process Scheduling Queues 12 Process Synchronization 15 Process Creation 17 Inter Process Communication 19 Remote Procedure Calls 21 Process Structures 23 CPU Scheduling 26 CPU Scheduling Benefits 28 CPU Scheduling Algorithms I 31 CPU Scheduling Algorithms II 34 Critical Section CS Problem and Solutions 37 Semaphores I 39 Semaphores II 43 The Classic Synchronization Problems 46 Monitors 49 Atomic Transactions 51 Deadlock 54 Deadlock Prevention 56 Deadlock Avoidance 59 Deadlock Detection 63 Deadlock Recovery 65 Memory Management Swapping Processes I 67 Memory Management Swapping Processes II 70 Memory Management 73 Memory Allocation I 75 Memory Allocation II 78 Paging I 80 Paging II 83 Segmentation 86 I O System Application I O Interface I 89 I O System Application I O Interface II 92 I O System Kernel I O Subsystems 95 RTOS 97 Implementing RT Operating Systems 99 Implementing RT Operating Systems 101 Real Time CPU Scheduling I 103 Real Time CPU Scheduling II 106 Multimedia Systems 108 Multimedia System Compression I 110 Multimedia System Compression II 113 Multimedia System Compression III 115 CPU and Disk Scheduling 117 Network Management 119 Security User Authentication 122 Security Program and System Threats 125 Security Securing Systems and Facilities 129 Security Intrusion Detection 132 Security Cryptography 135 Secondary Storage 137 Linux 139 Threads 141 User and Kernel Threads 143 Multi Threading Models 146 The Fork and exec System Calls 148 Thread Cancellation 150 Signal Handling 152 Thread Pools 155 Virtual Memory 157 Virtual Memory Demand Paging 159 Page Replacement Algorithms I 162 Page Replacement Algorithms II 165 Allocation of Frames 168 Virtual Memory Thrashing 171 File System Concepts 174 File System Implementation 176 File System Interface Access Methods I 178 File System Interface Access Methods II 180 File System Interface Directory Structure I 182 File System Interface Directory Structure II 185 File System

MCS-041: Operating Systems Dr. DK Sukhani, This book is useful for IGNOU BCA MCA students A perusal of past questions papers gives an idea of the type of questions asked the paper pattern and so on it is for this benefit we provide these IGNOU MCS 041 Operating System Notes Students are advised to refer these solutions in conjunction with their reference books It will help you to improve your exam preparations This book covers Introduction Definition and types of operating systems Batch Systems multi programming time sharing parallel distributed and real time systems Operating system structure Operating system components and services System calls system programs Virtual machines Process Management Process concept Process scheduling Cooperating processes Threads Inter process communication CPU scheduling criteria Scheduling algorithms Multiple processor scheduling Real time scheduling and Algorithm evaluation Process Synchronization and Deadlocks The Critical Section problem synchronization hardware Semaphores Classical problems of synchronization Critical regions Monitors Deadlocks System model Characterization Deadlock prevention Avoidance and Detection Recovery from deadlock Combined approach to deadlock handling Storage management Memory Management Logical and Physical Address Space Swapping Contiguous Allocation Paging Segmentation with paging Virtual Memory Demand paging and its performance Page replacement algorithms Allocation of frames Thrashing Page Size and other considerations Demand segmentation File systems secondary Storage Structure File concept access methods directory implementation Efficiency and performance recovery Disk structure Disk scheduling methods Disk management Recovery Disk structure disk scheduling methods Disk management Swap Space management Disk reliability Published by MeetCoogle

Operating System Question Bank with Answers: A

Comprehensive Handbook S. R. Jena, Suman Kumar, 2024-11-05 The dynamic field of computer science is ever evolving and with it the need for comprehensive and structured learning materials becomes increasingly essential As educators deeply engaged in nurturing the academic growth of our students at NIMS University Jaipur Rajasthan we identified the necessity for a specialized resource that not only aids learners in understanding core concepts but also challenges them to think critically apply their knowledge and analyze complex problems This recognition inspired us to create Operating System

Question Bank with Answers A Comprehensive Handbook This handbook is meticulously designed to align with Bloom s Taxonomy a framework that emphasizes the importance of higher order thinking skills By structuring our questions and answers according to Bloom s hierarchy we aim to provide a balanced approach that covers everything from basic recall and understanding to more complex tasks such as analysis evaluation and synthesis This structure ensures that students develop a deeper understanding of Operating Systems and are better prepared for academic evaluations competitive exams and professional applications The content in this handbook has been carefully curated and refined through our extensive experience in teaching the Operating Systems subject at NIMS University Each question has been selected and crafted to reflect key concepts and applications relevant to the field accompanied by detailed well explained answers This format not only aids in self assessment but also serves as a strong guide for instructors and students alike We believe this handbook will prove to be an invaluable resource for students educators and professionals looking to reinforce their knowledge of Operating Systems It is our hope that through this work learners will find a supportive tool that enriches their educational journey stimulates their critical thinking and deepens their understanding of one of the foundational subjects in computer science We express our sincere gratitude to NIMS University for providing an environment that fosters learning and teaching excellence It is our students enthusiasm and the academic spirit of the university that motivated us to compile this question bank We hope this contribution aids many in achieving their academic and professional goals Workshop on Real Time Operating Systems ; 8 ,1991 **Top 50 Operating System Interview Questions & Answers** Knowledge

Powerhouse,2018-09-11 Top 50 Operating System Interview Questions This book contains Operating System interview questions that an interviewer asks It is a compilation of easy to advanced Operating System interview questions after attending dozens of technical interviews in top notch companies like Oracle Cisco IBM etc Each question is accompanied with an answer so that you can prepare for job interview in short time Often these questions and concepts are used in our daily programming work But these are most helpful when an Interviewer is trying to test your deep knowledge of Operating System concepts How will this book help me By reading this book you do not have to spend time searching the Internet for Operating System interview questions We have already compiled the list of the most popular and the latest Operating System Interview questions Are there answers in this book Yes in this book each question is followed by an answer So you can save time in interview preparation What is the best way of reading this book You have to first do a slow reading of all the questions in this book Once you go through them in the first pass mark the questions that you could not answer by yourself Then in second pass go through only the difficult questions After going through this book 2 3 times you will be well prepared to face a technical interview for Software Engineer position in Operating System What is the level of questions in this book This book contains questions that are good for a Associate Software engineer to a Principal Software engineer The difficulty level of question varies in the book from a Fresher to an Experienced professional What are the sample questions in this book

What is a Real time system What is Virtual memory in OS What is multi processing in OS What is a Time sharing system What is a Thread in OS What are the advantages of multi threaded programming What is FCFS in OS What is Round Robin scheduling algorithm in OS What is a Deadlock in OS What are the necessary conditions for Deadlock to occur What is Banker Sanjeev Baskiyar: A survey on real-time operating systems Matjaž Colnarič,2003 **Real-Time Operating**

Systems Book 2 - the Practice Jim Cooling,2017-11-28 There s something really satisfying about turning theory into practice bringing with it a great feeling of accomplishment Moreover it usually deepens and solidifies your understanding of the theoretical aspects of the subject while at the same time eliminating misconceptions and misunderstandings So it s not surprising that the the fundamental philosophy of this book is that theory is best understood by putting it into practice Well that s fine as it stands Unfortunately the practice may a bit more challenging especially in the field of real time operating systems First you need a sensible practical toolset on which to carry out the work Second for many self learners cost is an issue the tools mustn t be expensive Third they mustn t be difficult to get use and maintain So what we have here is our approach to providing you with a low cost toolset for RTOS experimentation The toolset used for this work consists of A graphical tool for configuring microcontrollers specifically STM32F variants STM32CubeMX software application An Integrated Development Environment for the production of machine code A very low cost single board computer with inbuilt programmer and debuggerAll software which is free can be run on Windows OSX or Linux platforms The Discovery kit is readily available from many electronic suppliers The RTOS used for this work is FreeRTOS which is integrated with the CubeMX tool The author Jim Cooling has had many years experience in the area of real time embedded systems including electronic software and system design project management consultancy education and course development He has published extensively on the subject his books covering many aspects of embedded systems work such as real time interfacing programming software design and software engineering Currently he is a partner in Lindentree Associates which he formed in 1998 providing consultancy and training for real time embedded systems See www.lindentreeuk.co.uk Operating Systems Exam Essentials Cybellium,2024-10-26 Designed for professionals students and enthusiasts alike our comprehensive books empower you to stay ahead in a rapidly evolving digital world Expert Insights Our books provide deep actionable insights that bridge the gap between theory and practical application Up to Date Content Stay current with the latest advancements trends and best practices in IT AI Cybersecurity Business Economics and Science Each guide is regularly updated to reflect the newest developments and challenges Comprehensive Coverage Whether you re a beginner or an advanced learner Cybellium books cover a wide range of topics from foundational principles to specialized knowledge tailored to your level of expertise Become part of a global network of learners and professionals who trust Cybellium to guide their educational journey www.cybellium.com **Operating Systems MCQ (Multiple Choice Questions)** Arshad Iqbal,2019-06-10 The Operating Systems Multiple Choice Questions MCQ Quiz with Answers PDF Operating Systems MCQ

Operating System

(WBUT) Rohit Khurana, Operating System is an insightful work that elaborates on fundamentals as well as advanced topics of the discipline It offers an in depth coverage of concepts design and functions of an operating system irrespective of the hardware used With neat illustrations and examples and presentation of difficult concepts in the simplest form the aim is to make the subject crystal clear to the students and the book extremely student friendly The book caters to undergraduate students of WBUT who would find the conceptual discussions highly informative and enriching Tailored as a guide for self paced learning the book equips budding system programmers with the right knowledge and expertise Key Features Case studies of Linux and Windows 2000 to put theory concepts into practice Points to Remember boxes for a quick recap Check your Progress questions running along the text to test comprehension Summary of the chapter a list of key terms and insightful questions as retention aids Past question papers with solution to equip students for future examinations

On Real-time Operating Systems Shem-Tov Levi, Ashok K. Agrawala, 1987 Abstract This paper reviews the requirements for a distributed fault tolerant real time operating system Various aspects in addition to the scheduling are analyzed to emphasize the importance of developing such operating systems separately rather than modifying or building on top of regular ones

Engineering and Analysis of Real-time Operating Systems Daniel Issac Katcher, 1994

Real-time Operating Systems John A. Stankovic, 1992

Real Time Operating Systems RTOS Project Team, 1997

Real time operating system, 2005

Real-Time Operating System Second Edition Gerardus Blokdyk, 2018-08-08 What sources do you use to gather information for a Real time operating system study Which customers cant participate in our Real time operating system domain because they lack skills wealth or convenient access to existing solutions Will new equipment products be required to facilitate Real time operating system delivery for example is new software needed What are our Real time operating system Processes In what ways are Real time operating system vendors and us interacting to ensure safe and effective use Defining designing creating and implementing a process to solve a challenge or meet an objective is the most valuable role In EVERY

group company organization and department Unless you are talking a one time single use project there should be a process Whether that process is managed and implemented by humans AI or a combination of the two it needs to be designed by someone with a complex enough perspective to ask the right questions Someone capable of asking the right questions and step back and say What are we really trying to accomplish here And is there a different way to look at it This Self Assessment empowers people to do just that whether their title is entrepreneur manager consultant Vice President CxO etc they are the people who rule the future They are the person who asks the right questions to make Real time operating system investments work better This Real time operating system All Inclusive Self Assessment enables You to be that person All the tools you need to an in depth Real time operating system Self Assessment Featuring 702 new and updated case based questions organized into seven core areas of process design this Self Assessment will help you identify areas in which Real time operating system improvements can be made In using the questions you will be better able to diagnose Real time operating system projects initiatives organizations businesses and processes using accepted diagnostic standards and practices implement evidence based best practice strategies aligned with overall goals integrate recent advances in Real time operating system and process design strategies into practice according to best practice guidelines Using a Self Assessment tool known as the Real time operating system Scorecard you will develop a clear picture of which Real time operating system areas need attention Your purchase includes access details to the Real time operating system self assessment dashboard download which gives you your dynamically prioritized projects ready tool and shows your organization exactly what to do next You will receive the following contents with New and Updated specific criteria The latest quick edition of the book in PDF The latest complete edition of the book in PDF which criteria correspond to the criteria in The Self Assessment Excel Dashboard and Example pre filled Self Assessment Excel Dashboard to get familiar with results generation plus an extra special resource that helps you with project managing INCLUDES LIFETIME SELF ASSESSMENT UPDATES Every self assessment comes with Lifetime Updates and Lifetime Free Updated Books Lifetime Updates is an industry first feature which allows you to receive verified self assessment updates ensuring you always have the most accurate information at your fingertips

A Methodology for Evaluating Real Time Operating Systems John Martyn,2000 Computer and Real Time Operating System J. Gošek,1982 *Operating Systems 393 Success Secrets - 393 Most Asked Questions on Operating Systems - What You Need to Know* Leonard Carney,2014-03 An Operating System OS is a gathering of code that organizes computer equipment assets and delivers commonplace services for computer programmes The Operating System is an necessary part of the configuration code in a computer configuration Application programmes normally need an Operating System to work There has never been a Operating Systems Guide like this It contains 393 answers much more than you can imagine comprehensive answers and extensive details and references with insights that have never before been offered in print Get the information you need fast This all embracing guide offers a thorough view of key knowledge and detailed

insight This Guide introduces what you want to know about Operating Systems A quick look inside of some of the subjects covered Parallels Desktop for Mac Windows guest operating systems LTFS Operating systems supported by HP LTFS LISTSERV Supported operating systems PDA Operating systems of PDAs MacBook Pro Software and operating systems Mac Pro Operating systems Comparison of IPv6 support in operating systems Operating systems Interrupts List of operating systems Atari Wireless sensor network Operating systems List of operating systems RoweBots List of operating systems Samsung Electronics Operating systems Real time Huawei E220 Operating systems ARMv7 Mobile device operating systems History of IBM mainframe operating systems Early time sharing and virtual machine systems Operating systems Modes ARMhf 32 bit operating systems Beowulf computing Operating systems List of operating systems Apollo Computer History of operating systems Mainframes History of IBM mainframe operating systems FORTRAN Monitor System List of operating systems Generic commodity and other Mobile technology Operating systems History of IBM mainframe operating systems OS VS2 and MVS and much more **Hardware Support for Real-time Operating Systems** Paul James Kohout,2002

Recognizing the exaggeration ways to get this book **Real Time Operating System Question Papers 10ec842** is additionally useful. You have remained in right site to begin getting this info. acquire the Real Time Operating System Question Papers 10ec842 partner that we pay for here and check out the link.

You could buy guide Real Time Operating System Question Papers 10ec842 or acquire it as soon as feasible. You could quickly download this Real Time Operating System Question Papers 10ec842 after getting deal. So, later than you require the ebook swiftly, you can straight acquire it. Its consequently utterly easy and fittingly fats, isnt it? You have to favor to in this way of being

- Interactive and Gamified eBooks

Real Time Operating System Question Papers 10ec842 Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Real Time Operating System Question Papers 10ec842 free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Real Time Operating System Question Papers 10ec842 free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Real

Time Operating System Question Papers 10ec842 free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Real Time Operating System Question Papers 10ec842. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Real Time Operating System Question Papers 10ec842 any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Real Time Operating System Question Papers 10ec842 Books

What is a Real Time Operating System Question Papers 10ec842 PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Real Time Operating System Question Papers 10ec842 PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Real Time Operating System Question Papers 10ec842 PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Real Time Operating System Question Papers 10ec842 PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Real Time Operating System Question Papers 10ec842 PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf,

ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
