Ms Naidoo is a citizen of a war-torn country in Africa. She fled her country of birth and entered South Africa after a long journey. Ms Naidoo applies for asylum at the Department of Home Affairs in terms of section 21(1) of the Refugees Act 130 of 1998. Her application for asylum is rejected by the authorised refugee status determination officer without any input by Ms Naidoo. No reasons for the rejection were given, but it later transpired that the rejection was based on the informal notes of the refugee reception officer, working in the refugee reception office, responsible for issuing her with the asylum seeker permit. From these notes the impression might be gained that the decision had been influenced by certain irrelevant factors suggesting bias on the part of the administrator. The Refugees Act makes provision for review by the Standing Committee and appeal to the Appeal Board of a decision by a refugee status determination officer.

### **Paper 43 May June 2012 Memo:**

**The Integration and Protection of Immigrants** Paul Van Aerschot, Patricia Daenzer, 2016-02-24 In Scandinavian countries immigration is a sensitive issue and legislators approach to the questions it has raised has varied over the years. Whatever immigrant and integration policies are adopted in a democratic society it is clear that the legislation and the authorities have to ensure that the individual rights of the immigrants residing in its territory are respected. With Canada as a point of reference this book draws attention to weaknesses in the regulation and implementation of integration provisions threatening the immigrants individual rights in the EU member states of Denmark, Finland and Sweden. The study challenges readers to critically review the meaning of rights and the notion of global caring. It takes a critical look at how vulnerable immigrants fare in a largely immigrant nation with a welfare capitalism legacy when compared to three European nations which claim to embrace institutional welfare models. This book will be of great interest to scholars and decision makers interested in Scandinavian or Canadian immigration and integration policies.

**Fallout** John Solomon, Seamus Bruner, 2020-07-14 This book is a MUST BUY. President Donald J. Trump. The Russia and Ukraine scandals are unraveled. Corruption and greed exposed. No one is better at uncovering the truth than these two investigative journalists. Gregg Jarrett, FOX News legal analyst and author of the 1 NYT bestsellers *The Russia Hoax* and *Witch Hunt*. An exhaustively researched book that reads like an investigative thriller. *Fallout* reveals how Obama's Russian Reset led to corruption scandal and a desperate bid to impeach Donald Trump. In 2015 a major story broke exposing Hillary Clinton's role in approving the sale of American uranium assets to the Russian state nuclear agency Rosatom. Not only did the sale of Uranium One put 20 percent of America's domestic uranium supply under the control of Vladimir Putin, there was also evidence that the Clintons themselves had hugely profited from the deal. When presidential candidate Donald Trump made Uranium One the centerpiece of his 'Crooked Hillary' attacks, the Clinton team feared its potential to damage Hillary's campaign. Others in the Obama-Biden camp worried that if elected Trump would expose their role in selling out America's security to Putin. Their desperate need to neutralize the issue led them to launch an unprecedented investigation into the Trump campaign's purported ties to Russia. The infamous Steele dossier produced by Clinton-connected Fusion GPS sparked an investigation under FBI Director James Comey. Instead of ending after the election, the investigation grew bigger, eventually leading to Comey's firing and the appointment of Special Counsel Robert Mueller. When Mueller failed to find grounds for impeachment, Democrats seized on an ambiguous phone call with the Ukrainian president as a pretext to remove Trump from office. This gambit blew up in their faces when it exposed the secrets that Democrats tried hard to keep buried. An indispensable guide to the hidden background of recent events, *Fallout* shows how Putin's bid for nuclear dominance produced a series of political scandals that ultimately posed one of the greatest threats to our democracy in modern American history.

fulfilled its potential to emerge as an attractive jurisdiction for international arbitration. Now however with the adoption in 2013 of an entirely new arbitration law and the accompanying overhaul of the rules of CEPANI the Belgian Centre for Arbitration and Mediation Brussels is poised to progress rapidly towards the top rank of European and global seats of arbitration. This is the first comprehensive treatise in English to provide practical guidance to arbitration practitioners in house counsel and judges on how to conduct arbitrations in Belgium. To facilitate its use it is structured as an article by article commentary on the 2013 Law addressing the following aspects of each article: the purpose of the provision, comparison with the UNCITRAL Model Law on Commercial Arbitration, party autonomy, issues of costs and interplay with the rules of other major arbitration institutions and the New York Convention. The core of each article commentary is an in depth analysis that provides recommendations to practitioners and judges. The analysis goes beyond the contents of the commented article and deals with related issues that are not addressed expressly in the Law but may be of relevance for the issues covered in the provision in question. Arbitration professionals will find here convincing evidence of the liberal system for arbitration now prevailing in Belgium along with rules that reflect the most recent trends in international practice. The description and analysis offered are sure to contribute to the recognition of Belgium as a global arbitral jurisdiction.

**The Rhetorical Invention of America's National Security State** Marouf Hasian Jr., Sean Lawson, Megan D. McFarlane, 2015-07-29. The Rhetorical Invention of America's National Security State examines the rhetoric and discourse produced by and constitutive of America's national security state. Hasian, Lawson and McFarlane illustrate the importance of rhetoric to the expansion of the American national security state in the post 9/11 era through their examination of the global war on terrorism, enhanced interrogation techniques, drone crew stress activities of Edward Snowden, rise of Special Forces and popular representations of counterterrorism. The coauthors contend this expansion was not the result of lone imperial executives or a nefarious state within a state but was co-produced by elite and non-elite Americans alike who not only condoned but also in many cases demanded the expansion of the national security state. This work will be of interest to scholars in communication studies and political science.

**A History of the 1957 Federation of Malaya Constitution** Joseph M. Fernando, 2024-12-09. Fernando examines important aspects of the drafting of 1957 Federation of Malaya constitution related to the system of governance, division of legislative and executive powers, the conceptualisation of citizenship and the roles of the judiciary and election commission. The book sheds new light on the balances that the Reid Commission sought to embed in the constitution and the historical constitutional debates and discussions which greatly shaped the framing of the new federal constitution between 1956 and 1957. Drawing on historical evidence mainly from declassified primary constitutional documents it analyses the submissions, debates and discussions among the framers and various interest groups during the drafting of the constitution between 1956 and 1957 to discern more clearly the intentions of the framers on many aspects of governance and distribution of powers embedded in the constitutional provisions. This book reveals more deeply the nature and complexity of the
