*Turbulence Across the Sea* Elie Baranets, Andrew R. Novo, 2024-11-07 Great Power competition is back On the two sides of the Atlantic however this concept often means different things While the United States is focused on China Europe is preoccupied with Russia Yet shifting American priorities toward Asia requires reconceptualizing the future role of NATO In Europe this shift has led to serious thought about how to achieve strategic autonomy that will allow Europe to guarantee its own security regardless of strategic choices made in Washington As Chinese strategy focuses on dividing European actors and making them more economically dependent on Beijing these developments may undermine Washington's influence in Europe while limiting potential European action against Chinese interests With a mix of research methodologies applied by scholars from both sides of the Atlantic *Turbulence Across the Sea* offers a comprehensive analysis of relations among European and North American actors in the context of strategic competition among the United States Europe Russia and China In doing so it demonstrates that a reaffirmation of transatlantic cooperation is necessary to maintain security in the face of aggressive moves by both Russia and China By analyzing attitudes from the perspective of both the various actors Britain France Germany and the European Union and various sectors intelligence cooperation foreign direct investments technology and the defense industry this book provides readers with a comprehensive perspective on the challenges and opportunities in the shifting landscape of security in the twenty first century **Design & Applied Arts Index**, 1994

### How to make papel picado

Papel picado means punched or perforated paper and traditionally papel picado are made from colored tissue paper and cut using chisels We wanted to simplify the perforated paper technique so that you could create papel picado with household scissors and after a bit of experimentation we came up with this easy method of producing your own stunning papel picado We made ours using crepe paper as it comes in lovely vibrant colors and we found it much easier to handle than tissue paper which tends to tear It also means that your papel picado last longer so you can use them again next year

### How to make a mini pinata

Ever since we moved our family to South America we have all fallen head over heels for pinatas so it wasn't long until we felt compelled to try making one of our own Traditionally you beat a pinata with a stick until it exploded and all the yummy shiny contents fell to the ground Now days as a safer option pinatas often come with a string which you pull down on to release the contents We wanted to make a fully functioning mini pinata so ours too has a pull string It's been tried and tested by our children so we can report that it works beautifully

### Templates

If you would like to use the templates shown in the tutorial photos they are all free with the book to download from the Happythought website We have also included templates in this book which you can photocopy and scale up to use for your projects copy by hand or use as inspiration for your own designs
