

Student decision-making study

16 pages | 3910 words

Introduction

Every graduating high school students are challenged with the problem of having to decide on future career paths. Throughout certain points in the school year, it is not surprising to see masses of them trooping to various university campuses for the purpose of taking their entrance exams. After all, that is a major step in being able to attend the college of their choice. The most difficult decisions for them to make are the choice of college institutions to attend, and also what course program to take. For students who see themselves attending in a university, the assessment process perhaps undertakes high priority especially nowadays that the higher education has transformed in many ways. Choosing a course carefully is an important aspect which will give conclusion to a student's academic endeavor.

Recently, the Department of Education (DepEd) implemented career guidance for high school students in public secondary schools nationwide to help them get ready for higher education after graduation. Using this study, the researchers aims to determine how helpful the career pathing and guidance programs for students in deciding on course program they would take.

The researchers have decided to make a study about the factors that graduating high school students consider in choosing a career. We will be providing information that will cover various factors such as: having better job opportunities, pursuing your passion, etc. We believe that this research will help students and parents alike in choosing a course. Also, the researchers would like to present it to colleges and universities in order for them to promote their education based on the preferences of high school graduates.

Background of the Study

Many of the youth today are confused and uncertain as to what path they should follow after their high school days. During the 1960's and even today, people who graduated college found more job opportunities available to them than those who had a lower form of education. We believe that students who graduate college with the course suited for them will even have a higher percentage of getting a job.

Almost all high school graduates go through a hard time in trying to single out a course that will be an influential factor of what they will be in the near future. Due to the number of courses today, graduating high school students may find themselves in a difficult situation. We understand how important it is to pick the right course since different people have a different set of skills.

This research provides further analysis on influential factors that the students consider in deciding what course to take. For this purpose, the researchers worked on a study to understand high school students' choices by selecting the graduating students of Immaculate Conception Academy – West Campus to see the insights and perception of students coming from a private sector.

Theoretical Framework

Many studies on student decision-making use economic and sociologic theoretical frameworks to examine factors of college choice. These frameworks have been used to develop three theoretical, conceptual...

Paper On Decision Making

Grzegorz Sierpiński

Paper On Decision Making:

Collaborative Decision Making: Perspectives and Challenges P. Zaraté,J.P. Belaud,G. Camilleri,2008-06-13 This publication presents the latest innovations and achievements of academic communities on Decision Support Systems DSS These advances include theory systems computer aided methods algorithms techniques and applications related to supporting decision making The aim is to develop approaches for applying information systems technology to increase the effectiveness of decision making in situations where the computer system can support and enhance human judgements in the performance of tasks that have elements which cannot be specified in advance Also it is intended to improve ways of synthesizing and applying relevant work from resource disciplines to practical implementation of systems that enhance decision support capability The resource disciplines include information technology artificial intelligence cognitive psychology decision theory organizational theory operations research and modeling Researchers come from the Operational Research area but also from Decision Theory Multicriteria Decision Making methodologies Fuzzy sets and modeling tools Based on the introduction of Information and Communication Technologies in organizations the decisional process is evolving from a mono actor to a multi actor situation in which cooperation is a way to make the decision **Multiple-Criteria**

Decision-Making (MCDM) Techniques and Statistics in Marketing Tarnanidis, Theodore,Papathanasiou, Jason,Ismyrlis, Vasileios,Kittu Manda, Vijaya,2025-03-13 Marketing has become increasingly popular utilizing multi criteria decision making MCDM methods and statistics to create robust frameworks for making informed and strategic decisions Computational and modeling breakthroughs have resulted in a significant increase in the use of MCDM methods in marketing in the past decade making it an ideal solution for many marketing problems Statistics can now be used to conduct MCDM analyses on a variety of marketing problems including new product introduction and pricing using multiple data sources Businesses can make more informed strategic and effective decisions by using MCDM methods and statistical analysis in marketing By using these tools marketers can improve market performance and competitive advantage by optimizing product development pricing strategies market segmentation and campaign effectiveness Multiple Criteria Decision Making MCDM Techniques and Statistics in Marketing explores the effects of MCDM techniques on marketing practices It covers a wide range of statistics and research to examine MCDM in shaping modern consumer science This book covers topics such as management science product development and consumer behavior and is a useful resource for marketers business owners data scientists academicians and researchers *Decision Making and Problem Solving in Organizations: Assessing and Expanding the Carnegie Perspective* Daniella Laureiro Martinez,Pino Audia,Daniel A. Newark,2024-09-04 Within the broader study of decision making the Carnegie perspective occupies a unique place Initially developed by pioneering scholars such as Herbert Simon and James March it views organizational decisions as resulting from the combined influences of a psychological processes of attention allocation interpretation of experience and motivated

search and b features of the organizational context that direct attention influence preferences contend with ambiguity contain conflict and divide labor Despite its unique strengths and a considerable body of work see below some foundational references research that adopts the Carnegie perspective is still relatively unknown outside the field of organization studies As James March noted Carnegie has been primarily an importer of ideas rather than an exporter The goal of this research topic is to facilitate dialogue and integration between this well established Carnegie perspective and other lines of inquiry into the study of decision making and problem solving We are interested in bringing to the fore what is distinctive in the accumulated body of evidence produced by the Carnegie perspective and highlighting similarities differences and potential points of connection with other research done on similar topics To achieve this goal we hope that the front end of each submission will cover the following four components

Dynamics of decision making: from evidence to preference and belief Erica Yu, David A. Lagnado, 2014-10-24 At the core of the many debates throughout cognitive science concerning how decisions are made are the processes governing the time course of preference formation and decision From perceptual choices such as whether the signal on a radar screen indicates an enemy missile or a spot on a CT scan indicates a tumor to cognitive value based decisions such as selecting an agreeable flatmate or deciding the guilt of a defendant significant and everyday decisions are dynamic over time Phenomena such as decoy effects preference reversals and order effects are still puzzling researchers For example in a legal context jurors receive discrete pieces of evidence in sequence and must integrate these pieces together to reach a singular verdict From a standard Bayesian viewpoint the order in which people receive the evidence should not influence their final decision and yet order effects seem a robust empirical phenomena in many decision contexts Current research on how decisions unfold especially in a dynamic environment is advancing our theoretical understanding of decision making This Research Topic aims to review and further explore the time course of a decision from how prior beliefs are formed to how those beliefs are used and updated over time towards the formation of preferences and choices and post decision processes and effects Research literatures encompassing varied approaches to the time scale of decisions will be brought into scope a Speeded decisions and post decision processes that require the accumulation of noisy and possibly non stationary perceptual evidence e g randomly moving dots stimuli within a few seconds with or without temporal uncertainty b Temporally extended value based decisions that integrate feedback values e g gambling machines and internally generated decision criteria e g when one switches attention selectively between the various aspects of several choice alternatives c Temporally extended belief based decisions that build on the integration of evidence which interacts with the decision maker's belief system towards the updating of the beliefs and the formation of judgments and preferences as in the legal context Research that emphasizes theoretical concerns including optimality analysis and mechanisms underlying the decision process both neural and cognitive is presented as well as research that combines experimental and computational levels of analysis

Affect and cognition in upper echelons' strategic decision making: Empirical and

theoretical studies for advancing corporate governance. Matteo Cristofaro, Yongjian Bao, Sana Chiu, Ana Beatriz Hernández-Lara, Leticia Perez-Calero, 2023-02-15 *Assessment and Decision Making for Sustainable Transport* European Conference of Ministers of Transport, 2004-03-10 This report makes recommendations for good practice bringing the results of economic appraisals and environmental assessments before decision makers in the transport sector on the basis of reviews of recent experience in infrastructure planning and policy development in seven countries **Group Decision and Negotiation: Theory, Empirical Evidence, and Application** Deepinder Bajwa, Sabine T. Koeszegi, Rudolf Vetschera, 2017-01-24 This book constitutes revised selected papers from the 16th International Conference on Group Decision and Negotiation GDN 2016 held in Bellingham WA USA in June 2016 The GDN meetings aim to bring together researchers and practitioners from a wide spectrum of fields including economics management computer science engineering and decision science The 12 papers presented in this volume were carefully reviewed and selected from 70 submissions They deal with the fundamental part of all decision processes and individual preferences the situations of group decision making the collective decision making in situations characterized by a higher level of conflict and the group processes and negotiations in different subject areas **Decision Making in Aviation** Don Harris, Wen-Chin Li, 2017-07-05 Decision making pervades every aspect of life people make hundreds of decisions every day The vast majority of these are trivial and without a right or wrong answer In some respects there is also nothing extraordinary about pilot decision making It is only the setting that is different the underlying cognitive processes are just the same However it is the context and the consequences of a poor decision which serve to differentiate aeronautical decision making Decisions on the flight deck are often made with incomplete information and while under time pressure The implications for inadequate performance is much more serious than in many other professions Poor decisions are implicated in over half of all aviation accidents This volume contains key papers published over the last 25 years providing an overview of the major paradigms by which aeronautical decision making has been investigated Furthermore decision making does not occur in isolation It is a joint function of the flight tasks knowledge equipment on the flight deck and other stressors In this volume of collected papers works from leading authors in the field consider all these aspects of aeronautical decision making *Providing Information to Decision Makers to Protect Human Health and the Environment*, 1995 *Collected Papers. Volume VIII* Florentin Smarandache, 2022-04-01 This eighth volume of Collected Papers includes 75 papers comprising 973 pages on theoretic and applied neutrosophics written between 2010 2022 by the author alone or in collaboration with the following 102 co authors alphabetically ordered from 24 countries Mohamed Abdel Basset Abdullallah Gamal Firoz Ahmad Ahmad Yusuf Adhami Ahmed B Al Nafee Ali Hassan Mumtaz Ali Akbar Rezaei Assia Bakali Ayoub Bahnasse Azeddine Elhassouny Durga Banerjee Romualdas Bausys Mircea Bo coianu Traian Alexandru Buda Bui Cong Cuong Emilia Calefariu Ahmet evik Chang Su Kim Victor Christianto Dae Wan Kim Daud Ahmad Arindam Dey Partha Pratim Dey Mamouni Dhar H A Elagamy Ahmed K Essa

Decision and Negotiation in an Uncertain World Ye Chen, Gregory Kersten, Rudolf Vetschera, Haiyan Xu, 2018-06-07 This book
 constitutes the refereed proceedings of the 18th International Conference on Group Decision and Negotiation GDN 2018 held
 in Nanjing China in June 2018 The field of Group Decision and Negotiation focuses on decision processes with at least two
 participants and a common goal but conflicting individual goals Research areas of Group Decision and Negotiation include
 electronic negotiations experiments the role of emotions in group decision and negotiations preference elicitation and
 decision support for group decisions and negotiations and conflict resolution principles The 15 full papers presented in this
 volume were carefully reviewed and selected from 143 submissions They were organized in topical sections named
 theoretical concepts of group decision and negotiation decision support and behavior in group decision and negotiation and
 applications of group decision and negotiations *Introducing environmental decision making* The Open University, This 24
 hour free course considered the environmental impact of decisions that concern natural resources and waste advocating a
 systems approach *Bibliometric Analyses in Data-Driven Decision-Making* Prasenjit Chatterjee, Abhijit Saha, Seifedine
 Kadry, Gulay Demir, 2025-09-17 Bibliometric Analyses in Data Driven Decision Making is a comprehensive guide that will
 provide insights into the growth impact and trends within bibliometric tools and methodologies The handbook will adopt a
 pragmatic approach balancing theoretical concepts with practical applications of data driven decision making models
 through the perspectives of bibliometric analyses It s a cohesive guide to navigate the complexities of bibliometric analysis
 This book will accommodate a specific audience interested in utilizing bibliometric analysis to understand and navigate the
 dynamic landscape of the increasingly vital field of data driven decision making and its applications in a range of areas The
 book is organized into six different sections Each chapter will include real world examples case studies and step by step
 guides for applying bibliometric analysis Section one begins with an overview of bibliometric analysis and methodologies

laying the foundation for the detailed discussion that follows Subsequent sections explore bibliometric analysis in logistics and supply chain management healthcare and medicine and its integration with multi criteria decision making The book also addresses advances in artificial intelligence AI and machine learning and concludes with a focus on technology sustainability and innovation Each section provides a thorough analysis of the literature and emerging trends within these fields

Strategy as Practice Gerry Johnson,2007-08-02 This is an analysis of what managers actually do in relation to the development of strategy in organisations

Theoretical and Conceptual Frameworks in ICT Research Kandiero (PhD), Agripah,Bigirimana, Stanislas,Chizwina, Sabelo,2023-12-29 Research that is based on appropriate theoretical or conceptual frameworks ensures valid and credible research objectives and the production of relevant results that complement existing literature on a research problem Innovative and relevant knowledge is produced using appropriate theories and concepts Despite the importance of theoretical and conceptual frameworks to research many researchers have difficulties applying them appropriately in their research Researchers in information systems have limited exposure to theories of societal and human development that should guide them in applying their knowledge of information systems to address real world problems Theoretical and Conceptual Frameworks in ICT Research presents a collection of practical case applications of theoretical and conceptual frameworks in information systems research It guides researchers of information systems to explore and use appropriate theoretical frameworks This book further tests different theories and frameworks and recommends their effectiveness and improvement and identifies context specific theoretical and conceptual frameworks Covering topics such as decision electronic health record implementation institution management and technology adoption this premier reference source is an essential resource for policymakers educators and advanced level students of higher education information systems professionals librarians researchers and academicians

Fuzzy Techniques for Decision Making 2018 José Carlos R. Alcantud,2020-12-02 Zadeh s fuzzy set theory incorporates the impreciseness of data and evaluations by imputting the degrees by which each object belongs to a set Its success fostered theories that codify the subjectivity uncertainty imprecision or roughness of the evaluations Their rationale is to produce new flexible methodologies in order to model a variety of concrete decision problems more realistically This Special Issue garners contributions addressing novel tools techniques and methodologies for decision making inclusive of both individual and group single or multi criteria decision making in the context of these theories It contains 38 research articles that contribute to a variety of setups that combine fuzziness hesitancy roughness covering sets and linguistic approaches Their ranges vary from fundamental or technical to applied approaches

Collected Papers. Solutions for Transport Systems Grzegorz Sierpiński, 2019-11-13 This proceedings book gathers selected papers presented at the 16th Scientific and Technical Conference Transport Systems Theory and Practice organised by the Department of Transport Systems and Traffic Engineering at the Faculty of Transport of the Silesian University of Technology The conference was held on 16-18 September 2019 in Katowice Poland More details at www.TSTP.polsl.pl Which of the multi criteria methods should be applied to support decision making processes while tackling problems of sustainable transport solutions How can individual issues encountered when implementing smart solutions in transport systems be solved What advanced tools can be used to assess the current condition of selected elements of transport systems both in terms of transport infrastructure and traffic streams What data concerning transport processes can be collected automatically and how can we use it What is the right approach to the problem of the development of the spatial planning of transport systems This book provides the answers to these and many other questions It also includes a wealth of numerical analyses based on significant data sets illustrating the close affiliation between smart transport systems and environment friendly solutions The book primarily addresses the needs of three target groups Scientists and researchers ITS field Those working for local authorities responsible for the transport systems at the urban and regional levels Representatives of business traffic strategy management and industry manufacturers of ITS components **Resources in Education** ,1997-10

New Trends in Neutrosophic Theory and Applications, Volume II Florentin Smarandache, Surapati Pramanik,
Neutrosophic theory and applications have been expanding in all directions at an astonishing rate especially after the introduction of the journal entitled Neutrosophic Sets and Systems. New theories, techniques, algorithms have been rapidly developed. One of the most striking trends in the neutrosophic theory is the hybridization of neutrosophic set with other potential sets such as rough set, bipolar set, soft set, hesitant fuzzy set, etc.

Whispering the Techniques of Language: An Emotional Quest through **Paper On Decision Making**

In a digitally-driven earth wherever monitors reign supreme and immediate transmission drowns out the subtleties of language, the profound techniques and mental nuances hidden within phrases often move unheard. However, set within the pages of **Paper On Decision Making** a interesting literary prize sporting with raw emotions, lies an exceptional journey waiting to be undertaken. Penned by a skilled wordsmith, this charming opus attracts visitors on an introspective journey, delicately unraveling the veiled truths and profound impact resonating within the fabric of each word. Within the mental depths of the emotional review, we shall embark upon a genuine exploration of the book is primary styles, dissect its interesting publishing design, and succumb to the effective resonance it evokes heavy within the recesses of readers hearts.

Paper On Decision Making Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Paper On Decision Making free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Paper On Decision Making free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer

free PDF downloads on a specific topic. While downloading Paper On Decision Making free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Paper On Decision Making. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Paper On Decision Making any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Paper On Decision Making Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Paper On Decision Making is one of the best book in our library for free trial. We provide copy of Paper On Decision Making in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Paper On Decision Making. Where to download Paper On Decision Making online for free? Are you looking for Paper On Decision Making PDF? This is definitely going to save you time and cash in something you should think about.
