it with its many twists and turns that keeps you on your toes. The characters were great and you just didn't know who to trust in the conspiracy that was going on. Highly recommended series and anxious to read the next book. I love all of this author's books. I have read many post-apocalyptic and dystopian tales and this is different from all the rest. She always keeps me guessing. My only complaint is she doesn't write them fast enough. I believe this is the first 5 star rating I've ever given. LOVED IT. Such a great follow up to Legacy Code which ended up on my Top Ten 2014 list. I love Autumn's writing style; she is so talented and takes you right there alongside the characters. This is a beautiful and unique story and I can't wait to read more. In a story where I fell in love with the characters, it is easy to have your heart broken, have a smile on your face or cry over a simple scene in the book. This is one series I would never stop reading and admittedly have read on more than one occasion. This series has me intrigued; it feels realistic, real, and frightening at the same time. Humanity is alone in space in their fleet of ships and they have nowhere to go; they try to find a better earth, a new home. I want to know if they ever find it.

Tadeo Raines knows what they say about him: It's all lies. But lies are better than the truth. He broke the rules once and swore he'd never do it again. Now traitors plot against the fleet and he's tasked with hunting them down and stopping them. Permanently. Tadeo was born to command, born to lead the last remnants of humanity to a new Earth. He knows there's a better world out there. Daylight at the end of humanity's long night. And he's willing to do whatever it takes to get the fleet there. Even if it means walking the line between loyalty and treason. And breaking the rules. Again.

Fractured Era, Legacy Code is a suspenseful, dark, post-apocalyptic series that has earned five star reviews from fans of books like Hunger Games, Divergent, and Red Rising and has been compared favorably to Wool, 1984, and the new Battlestar Galactica. Addictive sci fi series. I haven't been this hooked on an author since Anne McCaffery's Killashandra series. Marie Hall, New York Times and USA Today Bestselling Author. What readers say about LEGACY CODE: Upon receiving my copy of The Legacy Code, I started reading and just could not stop until it was over. It pulled me in faster than most books I have read and kept me on the edge of my seat through the end. I read it all in just a few hours. An uncertain future has the colonists on edge, leading to acts of terrorism and assassination attempts on government officials. There are several intriguing elements at play, most significantly the mystery of the Legacy Code and whether it holds the key to humanity's survival. I'm looking forward to continuing the series to see where it goes from here. A couple of chapters in and I was already hooked. I ended up staying up til midnight as a mother of a toddler, this is a rare occasion in order to finish it. I just finished this book at 6:00 AM. This society crafted by Autumn Kalquist is fascinating. I can't even imagine how much time she spent carefully plotting every detail. Their existence feels so real and so frighteningly possible. I felt like I was there. The romance was sweet, there was pulse-pounding action, the

friendship between the girls was amazing and I was rooting for the characters so hard Autumn Kalquist is a talented author LEGACY CODE is easy to read her plot is engaging and her characters are real Her world building is second to none and I felt completely sucked into her story I started reading Legacy Code and within the first few pages I was hooked it is brilliantly written with detail and imagination from the offset It is also really well edited I am really looking forward to where the next installment of the Legacy Code Saga is going to take me It kind of had an initial feel of Battlestar Galactica a civilization that has to abandon their planet and go in search of a new one It had mystery a bit of a thriller like aspect humor and a taste of romance I m hooked enough for another taste now I just have to wait I both love and hate this book but in a good way Instantly I fell in love with the characters and storyline that Kalquist spun together This story is based in the future almost a space opera dystopian where the populations of earth escaped to space to find a better world we arrive in a distant future where civilization exists on space ships and they have to take decades before making jumps across space similar in a way to what I imagine Stargate Just when you start getting attached to the main characters STUFF HAPPENS And you MUST know what happens NEXT
