over heels for pinatas so it wasn't long until we felt compelled to try making one of our own. Traditionally you beat a pinata with a stick until it exploded and all the yummy shiny contents fell to the ground. Now days as a safer option pinatas often come with a string which you pull down on to release the contents. We wanted to make a fully functioning mini pinata so ours too has a pull string. It's been tried and tested by our children so we can report that it works beautifully. Templates: If you would like to use the templates shown in the tutorial photos they are all free with the book to download from the Happythought website. We have also included templates in this book which you can photocopy and scale up to use for your projects copy by hand or use as inspiration for your own designs.
