Evaluating the Local Impacts of the Rio Olympics Marcelo Neri,2020-07-05 This book evaluates the local impacts and legacies of the Olympics in Rio by comparing Rio2016 with other Olympic experiences and evaluating the ways in which the Games served the city The 2016 Rio Olympic Games took place in a scenario of enormous economic challenges and persistent inequalities In contrast to all previous Olympic experiences Brazil faced its worst economic recession ever recorded during the preparation phase for the Games In addition to the national crisis falling oil prices and corruption scandals fuelled the State of Rio s economic downfall This book specifically assesses the relative social performance of Rio s city population with respect to control groups covers traditional aspects of the Games legacy such as tourism infrastructure

and sports practice includes ordinary day by day aspects of the city's life such as education employment and housing and scrutinizes critical areas such as urban mobility gentrification and Guanabara Bay's pollution This thorough analysis offers readers further understanding on assessing the impacts and legacies of the Olympic experience It will be of great interest to upper level students and academics of tourism hospitality and events management

The End of Public Schools David W. Hursh, 2015-10-16 The End of Public Schools analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public

Malaysian Media Studies: Integrating Perspectives (UM Press) Azizah Hamzah, Amira Firdaus, 2016 This edited volume revisits developments in the field of media education and media studies at a time when society is experiencing a ubiquitous networked digital media environment Rapid advances in media and communication technologies and the accompanying developments in social cultural political and economic realms pose unexpected challenges to the curricula of long established media and communication schools As opposed to rigidly structured nation based mass media systems of the past century the new global media sphere celebrates the breaking down of borders whether spatial cultural or social Today in the second half of the second decade of the 21st century this problem translates into what and how to teach students of media who in all likelihood are more adept media consumers and producers than their teachers In a region where educational institutions and educators don't transform as fast as media technologies do there is a need to problematize and to reflect upon the situation This edited volume examines critical issues related to media studies at local institutions of higher learning and includes a sampling of research charting new directions in local media scholarship Contributions to this edited volume reflect the shared concerns of media educators and researchers in Malaysia and two neighboring countries Indonesia and Thailand Three main themes underscore this volume reflecting their importance to the evolution of media education and to a certain extent research as well Historical development of media education and training Current developments and future trajectories of media education in a globalized digital media environment Analysis of media and society

Planning and Design for Sustainable Urban Mobility Un-Habitat, 2013-10-30 Urban transport systems worldwide are faced by a multitude of challenges Among the most visible of these are the traffic gridlocks experienced on city roads and highways all over the world The prescribed solution to transport problems in most cities has thus been to build more infrastructures for cars with a limited number of cities improving public transport systems in a sustainable manner However a number of challenges faced by urban transport systems such as greenhouse gas

emissions noise and air pollution and road traffic accidents do not necessarily get solved by the construction of new infrastructure Planning and Design for Sustainable Urban Mobility argues that the development of sustainable urban transport systems requires a conceptual leap The purpose of transportation and mobility is to gain access to destinations activities services and goods Thus access is the ultimate objective of transportation As a result urban planning and design should focus on how to bring people and places together by creating cities that focus on accessibility rather than simply increasing the length of urban transport infrastructure or increasing the movement of people or goods Urban form and the functionality of the city are therefore a major focus of this report which highlights the importance of integrated land use and transport planning This new report of the United Nations Human Settlements Programme UN Habitat the world's leading authority on urban issues provides some thought provoking insights and policy recommendations on how to plan and design sustainable urban mobility systems The Global Report on Human Settlements is the most authoritative and up to date global assessment of human settlements conditions and trends Preceding issues of the report have addressed such topics as Cities in a Globalizing World The Challenge of Slums Financing Urban Shelter Enhancing Urban Safety and Security Planning Sustainable Cities and Cities and Climate Change [Minerals Yearbook 2012](#) Department of Interior, 2016-12-15 This volume covering metals and minerals contains chapters on approximately 90 commodities In addition this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary Staff and contractors working for mining companies companies that use export import certain minerals and metals geologists and members of the general public interested in the properties and federal rules governing the definitions and extraction use of minerals and metals Additionally economists and commodity investors or financial planners may be interested in this volume Related products Minerals and Metals collection can be found here <https://bookstore.gpo.gov/catalog/science/technology/minerals/metals> Mining Drilling resources collection is available here <https://bookstore.gpo.gov/catalog/science/technology/mining/drilling> Other printed volumes in the Mineral Yearbook series can be found here https://bookstore.gpo.gov/catalog/science/technology/minerals/metals/minerals_yearbook [Academic Languageing](#) Gisela Ernst-Slavit, Margo Gottlieb, 2025-07-15 Rethink how academic languageing can transform content area teaching For years the teaching of content based academic language to multilingual learners has focused on formulas vocabulary lists and sentence patterns often sidelining students linguistic and cultural strengths Gisela Ernst Slavit and Margo Gottlieb address these challenges by embracing academic languageing an active collaborative student driven process Academic Languageing offers strategies to integrate language and content learning while fostering student engagement voice and agency Dedicated chapters on academic languageing for Language Arts Mathematics Social Studies and Science highlight the dimensions of disciplinary language for each subject and provide strategies for moving learning forward with multilingual learners Additional features include Stop and Think prompts to help educators connect new ideas with their instructional settings Prompts at the end of

each chapter to encourage deeper thinking and application of the material Multilingual examples to mirror the varied classroom settings in the U S and beyond The ultimate resource for educators committed to empowering multilingual learners and fostering meaningful culturally sustaining education Academic Language ensures multilingual learners comprehend academic content and thrive as confident autonomous drivers of their own learning

Ideology and Meaning-Making under the Putin Regime Marlene Laruelle, 2025-01-14 Much has been written to try to understand the ideological characteristics of the current Russian government as well as what is happening inside the mind of Vladimir Putin Refusing pundits clichés that depict the Russian regime as either a cynical kleptocracy or the product of Putin's grand Machiavellian designs *Ideology and Meaning Making under the Putin Regime* offers a critical genealogy of ideology in Russia today Marlene Laruelle provides an innovative multi method analysis of the Russian regime's ideological production process and the ways it is operationalized in both domestic and foreign policies *Ideology and Meaning Making under the Putin Regime* reclaims the study of ideology as an unavoidable component of the tools we use to render the world intelligible and represents a significant contribution to the scholarly debate on the interaction between ideas and policy decisions By placing the current Russian regime into a broader context of different strains of strategic culture ideological interest groups and intellectual history this book gives readers key insights into how the Russo Ukrainian War became possible and the role ideology played in enabling it

Hockett,2015-07-14 In this one stop resource for middle and high school teachers Kristina J Doubet and Jessica A Hockett explore how to use differentiated instruction to help students be more successful learners regardless of background native language learning style motivation or school savvy They explain how to Create a healthy classroom community in which students unique qualities and needs are as important as the ones they have in common Translate curriculum into manageable and meaningful learning goals that are fit to be differentiated Use pre assessment and formative assessment to uncover students learning needs and tailor tasks accordingly Present students with avenues to take in process and produce knowledge that appeal to their varied interests and learning profiles Navigate roadblocks to implementing differentiation Each chapter provides a plethora of practical tools templates and strategies for a variety of subject areas developed by and for real teachers Whether you re new to differentiated instruction or looking to expand your repertoire of DI strategies *Differentiation in Middle and High School* will show you classroom tested ways to better engage students and help them succeed every day **Rare Earth Frontiers** Julie M. Klinger,2018-01-15 *Rare Earth Frontiers* is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation *Steel Odyssey*

Ohjoon KWON,JOO Choi,Hae-Geon LEE,2024-07-15 In this wide ranging interdisciplinary work the authors draw on history anthropology and materials engineering to present a comprehensive and ambitious examination of the multifaceted roles of iron and steel throughout history and the current and future challenges faced by the steel industry Ohjoon Kwon Joo Choi and Hae Geon Lee provide readers with an in depth understanding of the history of iron and steel and their impact on human society from a materials engineering perspective They begin by describing the characteristics of iron and steel and the history of human use of and interaction with these metals by compiling the fundamental knowledge necessary to understand iron s unique properties and metallurgical phenomena Following this they explain the influence of steel on human society and culture focusing on Industrial Revolution and warfare They also give examples that are rarely discussed elsewhere such as developments in Asia or iron s influence on thought and philosophy using Confucianism and Marxism as examples Readers will then be able to apply this contextual knowledge to address the profound impact of emerging challenges such as global environmental issues and the Fourth Industrial Revolution Despite the technical nature of this book all terminology is fully explained to facilitate better comprehension for those who may not possess an engineering education or a direct interest in metallurgy This book is therefore invaluable not only as a technical book but also as a guide to the development history of human civilization and its future challenges
