Othello and Macbeth as warriors Felix Reisch, 2020-08-05 Seminar paper from the year 2018 in the subject English Language and Literature Studies Literature grade 2.0 University of Osnabrück language English abstract This paper aims at analysing the warrior personalities of Othello and Macbeth Why do they act the way they do Does their warrior identity affect their behaviour or their relationships and does it have an effect on the decision they make Are there conflicts or problems they have to handle because of their way of thinking and acting The following paper will try to go further into these questions in order to give possible reasons for the tragic downfall of the two protagonists The two tragedies Othello and Macbeth written by William Shakespeare can be seen as two of the best known plays published by the English playwright At the beginning of the two Shakespearean dramas both protagonists are introduced as noble and fearless warriors Both generals seem to lead a really good life because they are happily married and highly respected by the people around them Nevertheless their lives change due to several momentous decisions they make At the end of both tragedies the brave and powerful warrior fails and dies because of the decisions he took before **A Relevance-Theoretic Analysis of the**

**Temptation Scene in Shakespeare's "Othello"** Simon Essig, 2014-08-20 Seminar paper from the year 2013 in the subject English Language and Literature Studies Linguistics grade 1.0 University of Tübingen Philosophische Fakultät Englisch Seminar course Linguistic and Literary Perspective language English abstract The means of communication keep linguistics and literary studies occupied They both try to conceive how we understand each other how we extract meaning from utterances and how we use language to affect people in a predictable way In the following a linguistic theory encounters a literary text Relevance theory as a cognitive pragmatic concept meets Othello by William Shakespeare The focus of this paper is the linguistic analysis of the so called temptation scene in which the villain Iago manipulates Othello skilfully and only by the use of language The objective of the analysis is to gain a deeper understanding of how the means of communication can succeed in altering and manipulating the beliefs of an individual as it occurs in Othello The analysis scrutinises Iago's utterances and communicative strategies as well as the underlying comprehension and inference processes by Othello Relevance theory as an inferential model of human communication serves as a pragmatic framework for the

analysis The first part of this paper introduces Othello the object of the examination The play s plot the characters and the temptation scene are briefly analysed from a literary perspective In the following the main points of relevance theory are explained as they were published by Dan Sperber and Deirdre Wilson in 1989 and edited in 1995 Within the context of this paper a full account of the theory cannot be given However the basic communicative and cognitive principles as well as the explicating and implicating processes are briefly discussed in order to gain a theoretical basis Where further particular phenomena such as metaphor or irony occur a short relevance theoretical account is given as they appear in the analysis After the theoretical background is laid out the analysis examines the exchanges of the temptation scene within the framework of relevance theory The analysis concentrates on the pragmatic procedures which lead Othello to the manifestation of his assumptions yielding the final conclusion It explains how Iago uses language strategically and deliberately to guide Othello through his understanding processes The analysis further examines Othello s comprehension strategies which make him vulnerable to Iago s manipulative strategy In the end the insights of the analysis are summarised The last chapter discusses how Othello s transformation was made possible by the means of human communication as explained by relevance theory
