immigration on what firms choose to produce and even on the ethnic diversity of restaurants and on financial markets as well as the theory and evidence on immigrants economic assimilation The textbook includes a comparative study of immigration policies in a number of immigrant receiving and sending countries beginning with the history of immigration policy in the United States Finally the book explores immigration topics that directly affect developing countries such as remittances brain drain human trafficking and rural urban internal migration Readers will also be fully equipped with the tools needed to understand and contribute to policy debates on this controversial topic This is the first textbook to comprehensively cover the economics of immigration and it is suitable both for economics students and for students studying migration in other disciplines such as sociology and politics *2025-26 NTA UGC-NET/JRF Economics Solved Papers 336* YCT Expert Team , 2025 26 NTA UGC NET JRF Economics Solved Papers 336 695 E This book contains the previous year solved papers from 2012 to 2024 with certified answer key **Handbook on the Economics of the Internet** Johannes M. Bauer, Michael Latzer, 2016-05-27 The Internet is connecting an increasing number of individuals organizations and devices into global networks of information flows It is accelerating the dynamics of innovation in the digital economy affecting the nature and intensity of competition and enabling private companies governments and the non profit sector to develop new business models In this new ecosystem many of the theoretical assumptions and historical observations upon which economics rests are altered and need critical reassessment *Banking's Final Exam* Morris Goldstein, 2017-05-30 Spurred by the success of the first stress test of US banks toward the end of the global economic crisis in 2009 stress testing of large financial institutions has become the cornerstone of banking supervision worldwide The aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable In Banking s Final Exam one of the world s leading experts on banking regulation concludes that the tests administered on both sides of the Atlantic suffer from fundamental weaknesses leading to a false sense of reassurance about the safety and soundness of the banking system Some weaknesses can be corrected within the existing bank capital regime but others will require bold reforms including higher minimum capital requirements for the largest and most systemically important banks The banking industry is likely to resist these reforms but this book explains why their objections do not hold water From Stress to Growth Marcus Noland, Donghyun Park, 2015-10-20 Asian financial systems which serve the most economically dynamic region of the world survived the global economic crisis of the last several years In *From Stress to Growth* Strengthening Asia s Financial Systems in a Post Crisis World scholars affiliated with the Peterson Institute for International Economics and the Asian Development Bank argue in separate essays that Asian systems must strengthen their quality diversity and resilience to future shocks in order to deliver growth in coming years The book examines such phenomena as the dominance of state owned banks the growth of non bank lending the so called shadow banks and the need to develop local bond markets new financial centers and stronger supervisory tools to prevent dangerous real estate asset bubbles

China's large financial system is discussed at length with emphasis on concerns that China's system has grown too fast that it is overly tilted toward corporate borrowing and that state domination has led to overly easy credit to state owned actors Asia needs investment to improve its infrastructure and carry out technological innovation but the book argues that the region's financial systems face challenges in meeting that need *Beyond McDonaldization* Dennis Hayes, 2017-04-19 *Beyond McDonaldization* provides new concepts of higher education for the twenty first century in a unique manner challenging much that is written in mainstream texts This book undertakes a reassessment of the growth of McDonaldization in higher education by exploring how the application of Ritzer's four features efficiency predictability calculability and control has become commonplace This wide ranging text discusses arguments surrounding the industrialisation of higher education with case studies and contributions from a wide range of international authors Written in an accessible style *Beyond McDonaldization* examines questions such as Can we regain academic freedom whilst challenging the McDonaldization of thought and ideas Is a McDonaldization of every aspect of academic life inevitable Will the new focus on student experience damage young people Why is a McDonaldized education living on borrowed time Is it possible to recreate the university of the past or must we start anew Does this industrialisation meet the educational needs of developing economies This book brings international discussions on the changing world of higher education and the theory of McDonaldization together seeking to provide a positive future vision of higher education Analysing and situating the discussion of higher education within a wider social political and cultural context this ground breaking text will have a popular appeal with students academics and educationalists

Credit Rating Governance Ahmed Naciri, 2015-01-30 Credit rating agencies play an essential role in the modern financial system and are relied on by creditors and investors on the market In the recent financial crisis their power and reliability were often questioned yet a simple rating downgrade could threaten to bankrupt a whole country This book examines the governance of credit rating agencies as expressed by their ability to fairly ethically and consistently assign higher rates to issuers having lesser default risks However factors such as the drive for increased revenue and market share the inadequate business model the inadequate methodology of assessing risk opacity and inadequate internal monitoring have all been identified as critical governance failures for credit agencies This book explores these issues and proposes some potential solutions and improvements This will be of interest to researchers and advanced students of corporate finance financial economics risk management investment management and banking [Global Developments in Public Infrastructure Procurement](#) Darrin Grimsey, Mervyn K. Lewis, 2017-11-24 There is widespread acceptance of the importance of infrastructure but less agreement about how it should be funded and procured While most public infrastructure is still provided in house or by traditional procurement methods with well researched strengths and weaknesses the development of service concession arrangements has seen a greater emphasis on lifecycle costing risk assessment and asset design as featured in a variety of public private partnership PPP delivery models This book examines

the various procurement approaches and provides a framework for comparing their advantages and disadvantages Drawing on international experience it considers some of the best and worst examples of PPPs and infrastructure projects generally along with the lessons for improving infrastructure procurement processes

2014 Global Hunger Index Saltzman, Amy, Birol, Ekin, Wiesman, Doris, Prasai, Nilam, Yohannes, Yisehac, Menon, Purnima, Thompson, Jennifer, 2014-10-13 With one more year before the 2015 deadline for achieving the Millennium Development Goals the 2014 Global Hunger Index report offers a multifaceted overview of global hunger that brings new insights to the global debate on where to focus efforts in the fight against hunger and malnutrition The state of hunger in developing countries as a group has improved since 1990 falling by 39 percent according to the 2014 GHI Despite progress made the level of hunger in the world is still serious with 805 million people continuing to go hungry according to estimates by the Food and Agriculture Organization of the United Nations The global average obscures dramatic differences across regions and countries Regionally the highest GHI scores and therefore the highest hunger levels are in Africa south of the Sahara and South Asia which have also experienced the greatest absolute improvements since 2005 South Asia saw the steepest absolute decline in GHI scores since 1990 Progress in addressing child underweight was the main factor behind the improved GHI score for the region since 1990

Making College Work Harry J. Holzer, Sandy Baum, 2017-08-15 Practical solutions for improving higher education opportunities for disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive any college credential while others earn degrees or certificates with little labor market value Large numbers of these students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged students stem both from issues on the individual side such as weak academic preparation and financial pressures and from institutional failures Low income students disproportionately attend schools that are underfunded and have weak performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial aid or academic supports target individual students Other solutions such as stronger linkages between coursework and the labor market and more structured paths through the curriculum are aimed at institutional reforms All students and particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard choices and face difficult tradeoffs in the process While no single policy is guaranteed to greatly improve college and career outcomes implementing a number of evidence based policies and programs together has the potential to improve these outcomes substantially

The Political Economy of Central Banking in Emerging Economies Mustafa Yağcı, 2020-09-03 Since the start of the Global Financial Crisis in 2008 research on central banking has gained momentum due to unusual levels of central bank activism and unconventional monetary policy measures in many countries While these policies drew significant attention to advanced economy central banks there has been much less academic focus on central banking in emerging economies This book extends the research on the political economy of central banking by focusing on the emerging economies in Asia Africa Latin America and the European periphery Central banks are at the heart of economic policymaking and their decisions have a significant impact on the social and economic well being of citizens Adopting an interdisciplinary political economy perspective the contributions in this book explore the reciprocal relations between politics economics and central banks and how the global and domestic political economy contexts influence central bank practices The chapters employ diverse theoretical perspectives such as institutional and organizational theory developmental state resource dependency and gender studies drawing on disciplines ranging from politics international relations public policy management finance and sociology This book will appeal to academics and students of central banking political economy and emerging economies as well as professionals and policymakers engaged with central banks monetary policy and economic development

After Piketty Heather Boushey, J. Bradford DeLong, Marshall Steinbaum, 2017-05-08 Are Thomas Piketty's analyses of inequality on target Where should researchers go from here in exploring the ideas he pushed to the forefront of global conversation In *After Piketty* a cast of economists and other social scientists tackle these questions in dialogue with Piketty in what is sure to be a much debated book in its own right

Quest for Inclusive Growth in Bangladesh Muhammed Muqtada, 2020-11-22 This book offers a selection of intensely researched essays focused on the critical planning objectives and policy priorities that would enhance the promotion of inclusive growth in a developing country It has taken Bangladesh as the case study It argues for rethinking of traditional policies and provides arguments and ways to reorient these toward inclusive growth and better social inclusion These involve a dedicated focus on employment and inclusion in the design of monetary and fiscal policies trade and industrial policies policies toward rural non farm employment social protection and safety net strategy and the nature of institutional and governance reforms which are imperative for ensuring inclusive growth The studies included in the book were prepared before or at the onset of the ongoing COVID 19 pandemic and the unfolding economic crisis yet they provide

cursory observations on its likely impact and underscore how the stated principles and policies of an inclusive growth strategy have become even more significant in the present situation Bangladesh has been growing respectably during the past decade and a half and has arguably shown strong progress in several social indicators However inequality and vulnerability are rising alarmingly and the economy is beset with high levels of corruption as well as with various other governance deficits that can adversely affect future growth and social inclusion The book provides a critical assessment of how far growth in Bangladesh has been inclusive both over time and in comparison to selected South and Southeast Asian countries It constructs a specific inclusive growth index with reference to what the study considers as the significant goals and pillars of inclusive growth Bangladesh is not the only developing country that is faced with the arduous task of tackling unbalanced economic growth and of implementing the 2030 Agenda Rising vulnerability inequality disappointing job growth and poor governance are also major challenges to inclusive growth for many countries in the Global South Therefore the appeal of this book extends well beyond the borders of Bangladesh and the South Asian region Corresponding to SDG 8 the book is aimed at academia researchers policymakers civil society leaders as well as other national and international development practitioners with an avid interest in issues concerning growth with equity and in sync with the 2030 Agenda for Sustainable Development In addition the book is a valuable resource for interested students of disciplines related to economics and development policy
