*Read the passage and then fill in each blank with the correct form of the word in the brackets.*

There are some factors to observe when feeding wildlife during the winter season. When the winter has really arrived, the feeding of resident and migrant birds should become not a casual activity but a regular and important one as these (36) (diets) become dependent on your supply of winter food. It is (37) (good) never to feed birds at all than to put out food for a period and then forget about them and they will surely die of starvation if food they have come to expect is (38) (few) of them.

Increase the quantities of fatty food - this gives strength, stamina and warmth. Make up a special bird 'pudding' by mixing together seeds, nuts, pieces of cheese, soft biscuits, stale cake, (39) (boil) potatoes and other scraps and place in a large cup or similar receptacle. Pour hot fat over the (40) (mix) and allow to cool and set before turning this out on to the bird table.

Water is as important as food. This should be in a receptacle shallow enough to let birds drink and (41) (bathe) in it, probably not more than four inches deep and made of something with a rough surface. The birds will not be able to support (42) (they) in a container made of a smooth substance, such as plastic. The water should be changed quite (43) (frequent) and should never be allowed to freeze solid in really freezing weather conditions.

The importance of water in winter is that it helps the birds to maintain healthy, well-oiled and warm coats. With its beak, the bird smoothes its feathers into position and dips its beak (44) (repeat) into its oil gland and spreads the waterproof substance smoothly along its feather. This complex preening process is vital to the warmth and protection of the bird.

Birds become very engrossed when bathing, so make sure that the bird bath is in a position near cover, to which the birds can dart if surprised by a cat, dog or squirrel which may be (45) (stalk) on them. If you really care to take all these precautions, the birds may be allowed to feed well and take bath in safety.

**The Enduring Legacies of the Global Financial Crisis in East Asia** Iain Pirie, 2024-07-25 The Enduring Legacies of the Global Financial Crisis in East Asia challenges the assumption that the global financial crisis had a limited structural impact on East Asian political economies arguing that the crisis has led to a significant if uneven reorganization of major national political economies within the region where in response to the crisis states have promoted domestic processes of financialization as a means of stimulating their economies The major East Asian economies bar Japan enjoyed strong recoveries from the 2008 2009 financial crisis However this success has been achieved by promoting domestic processes of financialization to maintain demand more precisely the rapid build up of household debt Malaysia Korea Taiwan China and asset price bubbles China Japan In short East Asia has employed precisely those practices that the global financial crisis itself illustrated the unsustainability of to maintain growth Using a post Keynesian framework the book argues that the dependency on these forms of financialization to support demand is a direct product of a failure to address the issue of inequality High levels of inequality slow the growth of non debt based domestic consumption An alternative approach to supporting demand in the post crisis period would need to focus on progressive redistribution through strengthening of labour rights and systems of social support which would directly challenge the interests of economic and political elites The structural vulnerabilities that accelerated financialization is creating in East Asia demonstrate the necessity of a post Keynesian growth strategy based on redistribution and curbing financialization The book also argues that in certain Northeast Asian economies the crisis has led to a consolidation of systems of industrial activism state control which could have occurred without accelerated financialization and vice versa This book will be of great interest to students and scholars of political economy and Asian studies *OECD Economic Surveys: Brazil 2018* OECD, 2018-02-28 Strong growth and remarkable social progress over the past two decades have made Brazil one of the world s leading economies despite the deep recession that the economy is now emerging from However inequality remains high and fiscal accounts have deteriorated substantially calling for [Oswaal NTA CUET \(UG\) Question Banks | Chapterwise & Topicwise | English, Accountancy, Business Studies, General Test & Economics | Set of 5 Books | Entrance Exam Preparation Books 2024](#) Oswaal Editorial Board, 2024-03-08 Description of the Product 100% Exam Ready With 2023 CUET UG Exam Papers Fully Solved with Explanations Concept Clarity With Revision Notes Chapter Analysis with updated pattern Extensive Practice With 800 Practice Questions of Previous Years 2021 2023 Fill Learning Gaps with Smart Mind Maps Concept Videos Valuable Exam Insights With Tips Tricks to ace CUET UG in 1st Attempt *Value for Money in School Education Smart Investments, Quality Outcomes, Equal Opportunities* OECD, 2022-11-29 Policymaking has always been a matter of making choices managing trade offs and balancing multiple goals and priorities to make complex budgetary decisions Yet the past few years have seen a rising number of priorities facing policymakers hence mounting pressure to enhance the efficiency of public

**Making College Work** Harry J. Holzer, Sandy Baum, 2017-08-15 Practical solutions for improving higher education opportunities for disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive any college credential while others earn degrees or certificates with little labor market value Large numbers of these students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged students stem both from issues on the individual side such as weak academic preparation and financial pressures and from institutional failures Low income students disproportionately attend schools that are underfunded and have weak performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial aid or academic supports target individual students Other solutions such as stronger linkages between coursework and the labor market and more structured paths through the curriculum are aimed at institutional reforms All students and particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard choices and face difficult

tradeoffs in the process While no single policy is guaranteed to greatly improve college and career outcomes implementing a number of evidence based policies and programs together has the potential to improve these outcomes substantially
