INSTRUCTIONS TO THE CANDIDATE

1. Please ensure that the **VERSION CODE** shown at the top of this Question Booklet is the same as that shown in the OMR Answer Sheet issued to you. If you have received a Question Booklet with a different **VERSION CODE**, please get it replaced with a Question Booklet with the same **VERSION CODE** as that of the OMR Answer Sheet from the invigilator. **THIS IS VERY IMPORTANT.**
2. Please fill in the items such as name, signature and roll number of the candidate in the columns given above. Please also write the Question Booklet Sl. No. given at the top of this page against item 5 in the OMR Answer Sheet.
3. Please read the instructions given in the OMR Answer Sheet for marking answers. Candidates are advised to strictly follow the instructions contained in the OMR Answer Sheet.
4. This Question Booklet contains 120 questions. For each question, five answers are suggested and given against (A), (B), (C), (D) and (E) of which, only one will be the **Most Appropriate Answer**. Mark the bubble containing the letter corresponding to the 'Most Appropriate Answer' in the OMR Answer Sheet, by using either **Blue or Black ball-point pen only.**
5. **Negative Marking:** In order to discourage wild guessing, the score will be subject to penalization formula based on the number of right answers actually marked and the number of wrong answers marked. Each correct answer will be awarded **FOUR** marks. One mark will be deducted for each incorrect answer. More than one answer marked against a question will be deemed as incorrect answer and will be negatively marked.

IMMEDIATELY AFTER OPENING THIS QUESTION BOOKLET, THE CANDIDATE SHOULD VERIFY WHETHER THE QUESTION BOOKLET ISSUED CONTAINS ALL THE 120 QUESTIONS IN SERIAL ORDER. IF NOT, REQUEST FOR REPLACEMENT.

DO NOT OPEN THE SEAL UNTIL THE INVIGILATOR ASKS YOU TO DO SO.

Primary Science Education in East Asia Yew-Jin Lee, Jason Tan, 2018-09-26 This edited volume is a state of the art comparison of primary science education across six East Asian regions namely the People s Republic of China Republic of Korea Republic of China Hong Kong SAR Japan and Singapore While news of educational policies classroom teaching assessment and other educational innovations here often surface in the international media this book brings together for the first time relevant information regarding educational systems and strategies in primary science in East Asia Above all it is a readable yet comprehensive survey readers would have an accurate sense of what has been accomplished what has not worked so well and what remains to be done Invited experts in comparative education research and or science education also provide commentary by discussing common themes across the six regions These types of critical synoptic reviews add much value by enabling readers to understand broad commonalities and help synthesize what must surely be a bewildering amount of very interesting albeit confusing body of facts issues and policies Education in East Asia holds many lessons both positive and negative to offer to the rest of the world to which this volume is a timely contribution to the literature

Rare Earth Frontiers Julie M. Klinger, 2018-01-15 *Rare Earth Frontiers* is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering

possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation

Emerging Concepts in Technology-Enhanced Language Teaching and Learning Zou, Bin, Thomas, Michael, Barr, David, Jia, Wen, 2022-01-21. For years, language teachers have increasingly been using technologies of all kinds from computers to smartphones to help their students learn. Current trends in TELTL technology-enhanced language teaching and learning such as artificial intelligence, virtual reality, augmented reality, gamification, and social networking appear to represent major shifts in the digital language learning landscape. However, various applications of technology to mediate language learning may be informed by reflecting not only on the present but perhaps more importantly on relevant insights from past research and practice. *Emerging Concepts in Technology-Enhanced Language Teaching and Learning* explores the recent development of the new technologies for language teaching and learning to gain insights into and synergy of the theories, pedagogies, technological design, and evaluation of TELTL environments for comprehending the trends and strategies of the new digital era as well as investigate the possibility of future TELTL research direction. The book includes trends shaped by contemporary issues such as the COVID-19 pandemic. Covering topics such as digital education tools, L2 learnings, and sentiment analysis, this book serves as an essential resource for researchers, language teachers, educational software developers, administrators, IT consultants, technologists, professors, pre-service teachers, academicians, and students.

Resources in Education, 1986. The New Landscape of Mobile Learning Charles Miller, Aaron Doering, 2014-02-24. *The New Landscape of Mobile Learning* is the first book to provide a research-based overview of the largely untapped array of potential tools that mobile learning offers educators and students in face-to-face, hybrid, and distance education. This cutting-edge guide provides an essential explanation of the emergence and role of Apps in education, design guidelines for educational Apps, case studies, and student narratives from across the US describing successful App integration into both K-12 and Higher Education. Robust research-based evaluation criteria for educational Apps. Although many believe that Apps have the potential to create opportunities for transformative mobile education, a disparity currently exists between the individuals responsible for creating Apps, i.e., developers who often have little to no instructional experience, and the ultimate consumers in the classroom, i.e., K-20 educators and students. *The New Landscape of Mobile Learning* bridges this gap by illuminating critical design, integration, and evaluation narratives from leaders in the instructional design, distance education, and mobile learning fields.

Finnish Lessons 2.0 Pasi Sahlberg,2014-02-01 Pasi Sahlberg has thoroughly updated his groundbreaking account of how Finland built a world class education system during the past four decades In this international bestseller Sahlberg traces the evolution of Finnish education policies and highlights how they differ from the United States and much of the rest of the world Featuring substantial additions throughout the text Finnish Lessons 2 0 demonstrates how systematically focusing on teacher and leader professionalism building trust between the society and its schools and investing in educational equity rather than competition choice and other market based reforms make Finnish schools an international model of success This second edition details the complexity of meaningful change by examining Finlands educational performance in light of the most recent international assessment data and domestic changes **The Power of Not Thinking** Simon

Roberts,2022-09-12 Details the role our body plays in how we learn and how we can tap into our body s knowledge to excel in all facets of life Ask someone to point to the part of their body responsible for their intelligence and it is highly likely that they will point at their head This assumption is understandable given that for centuries from Descartes cogito ergo sum to the computer age this is what we have been told to think And yet we all share common experiences that have revealed the incomparable power of not thinking Have you ever struggled to remember your pin number only to hold your fingers out and type it correctly with your hands played the piano without focusing on remembering the correct notes or listened to your gut feeling when under the pressure of a big decision All these instances prove that it is time to stop neglecting the role the body plays in our acquisition of knowledge and to explore how it is that brain and body combine to deliver what we view as uniquely human intelligence You never forgot how to ride a bike did you In this unique new book social and business anthropologist Simon Roberts looks at the pivotal role that our body plays in how we learn and reminds us of why we should learn to listen to it more often Drawing upon an incredible range of cutting edge science real life examples and personal experience Roberts explores the complexity of even the simplest of tasks that humans perform every day and goes on to explain how with a greater awareness of the processes at work we can tap into our full potential and excel in any area of our lives His proposition isn t the antidote to big data cold rationalism and reductionism But as embodied knowledge emerges from our engagement and interaction with the world the author underlines why intelligence does not solely reside in our

brains If there s a single practical message to be taken from it it is that we should give more credit to the role of the body as a resource for learning about and understanding the world That means a more sleeves rolled up engaged and practical way of learning by doing not by rational detachment Rebuilding the Education Sector in East Timor during UNTAET Trina Supit, 2020-10-07 This original volume examines the collaboration between East Timorese and international staff in the rebuilding of the education sector during the United Nations Transitional Administration in East Timor UNTAET 1999 2002 Using interviews contemporary newspaper articles and reports from UN sources and the World Bank the book enables a comprehensive analysis of Timorese agency Examining choices made by the Timorese and drawing comparison with other former Portuguese colonies the text considers the power of the Timorese elite the role of nepotism and corruption the preservation of the Indonesian curriculum and the selection of Portuguese as the medium of instruction and official language together with Tetum Concluding with a contemporary discussion on the educational achievements for East Timorese children during UNTAET compared with those of today Rebuilding the Education Sector in East Timor during UNTAET will be of interest to academics researchers and post graduate students in the fields of post conflict studies post colonial education and language policy as well as East Timor more specifically This book will also benefit graduate students and scholars in teacher education Trina Supit completed her PhD at the University of Sydney Australia She was a member of the UNTAET Division of Education
