Technological Transformation in the Global Pulp and Paper Industry 1800-2018

Timo Särkkä, Miquel Gutiérrez-Poch, Mark Kuhlberg, 2018-10-24 This contributed volume provides 11 illustrative case studies of technological transformation in the global pulp and paper industry from the inception of mechanical papermaking in early nineteenth century Europe until its recent developments in today's business environment with rapidly changing market dynamics and consumer behaviour. It deals with the relationships between technology transfer, technology leadership, raw material dependence and product variety on a global scale. The study itemises the main drivers in technology transfer that affected this process including the availability of technology, knowledge investments and raw materials on the one hand and demand characteristics on the other hand within regional, national and transnational organisational frameworks. The volume is intended as a basic introduction to the history of papermaking technology and it is aimed at students and teachers as course material and as a handbook for professionals working in either industry, research centres or universities. It caters to graduate audiences in forestry, business, technical sciences and history.

Scrum Wars Allan Levine, 1996-08-08 The image of the scrum, a beleaguered politician surrounded by jockeying reporters, is central to our perception of Ottawa. The modern scrum began with the arrival of television but even in Sir John A. Macdonald's day a century earlier reporters in the parliamentary press gallery had waited outside the prime minister's office pen in hand, hoping for a quote for the next edition. The scrum represents the test of wills, the contest of wits and the battle for control that have characterized the relationship between Canadian prime ministers and journalists for more than 125 years. *Scrum Wars* chronicles this relationship. It is an anecdotal as well as analytical account showing how earlier prime ministers like Sir John A. Macdonald and Sir Wilfrid Laurier were able to exercise control over what was written about their administrations while more recent leaders like John Diefenbaker, Joe Clark, John Turner and Brian Mulroney often found themselves at the mercy of intense media scrutiny and comment.
