The Bialy Pimps Johnny B. Truant, Life is good at Bingham s Bagel Deli The loathed customers are dealt the poor treatment they seem to deserve bad rap music is played loudly and The Rat is killed often enough to stem his immortality And the insane homeless regulars like drunken Little Johnny Redbeard keep life interesting When a rival tricks the crew into thinking that the deli s closure is imminent they do the only logical thing instead of giving up they decide to go out in a blaze of glory handing their customers the humiliation and abuse that the pesky social contract had previously forbidden But as insults turn to assaults and snide remarks turn to harassment and pro wrestling moves a strange thing happens Business goes up way up as people come back in droves begging for more But the flame that burns twice as bright burns half as long and as pop culture welcomes the parody musical group The Bialy Pimps and its frivolous merchandising machine and as the crew pushes to see how much bad behavior society will accept the violent road to fame begins to feel like a runaway train out of control and headed for destruction The Bialy Pimps is a tale that could only be spun by the twisted vaguely profane mind of outspoken blogger Johnny B Truant Combining hilarity with questions about conformity and whether the tail or the dog is the one doing the wagging this story can t help but raise a question for the reader If the rest of your friends decided to submit to the Face Kicking Machine would you do it too

programming has been the focus of much public scrutiny legislative action and applied research in recent years As a result human service providers have learned to exhibit greater respect for the needs and legal rights of their consumers the appropriateness and cost effectiveness of treatment procedures and service programs and the personnel and facilities involved in providing services to consumers Despite this encouraging trend many human service agencies are still trying unsuccessfully to meet the two fundamental criteria of effective programming 1 providing services that are effective in meeting the needs of the consumer and 2 equipping consumers to function independently of the human service system to the extent possible For example there appears to be a general acceptance of the notion that custodial institutional service programs are needed despite the fact that they are ineffective in rehabilitating and transitioning clients to the community and that they are difficult to change In addition although community based service programs have been developed as alternatives to institutional placement there is rarely sufficient transitional planning and programming to facilitate the clients progress from the institution to the community Although these problems generally are acknowledged most human service managers and practitioners are ill equipped to deal with them Specifically the technology of human service management is in need of improvement It is more theoretical than practical and it lacks sufficient field testing and empirical validation
