

Installing your television set

1 Positioning the television set

Place your TV on a solid stable surface. To avoid danger do not expose the TV to water, or a heat source (e.g. lamp, candle, radiator). Do not obstruct the ventilation grid at the rear.

2 Connecting the aerials

- Insert the aerial plug into the  socket at the rear of the set.
- Connect the power lead to the television and the mains plug into the wall socket (220-240 V/50 Hz). For connecting other appliances see page p.12.

3 Switching on

To switch on the set, press the **POWER** key. A green indicator comes on and the screen lights up. Go straight to the Quick Installation chapter. If the TV remains in standby mode (red indicator), press the **P +/-** key on the remote control. The indicator will flash when you use the remote control.

Quick installation

Plug & Play

When you turn on the TV set for the first time, a menu is displayed on screen. This menu prompts you to select the country and language for the menus:

If the menu is not displayed, press the **MENU** key to display the menu.

- 1 Use the **^** **v** keys on the remote control to select your country and validate with **>**.
If your country does not appear in the list, select choice "...".
- 2 Next select your language using the **^** **v** keys and validate with **>**.

- 3 The search starts automatically. All the available TV programmes and radio stations will be stored. This operation takes a few minutes. The display shows the progress of the search and the number of programs found. At the end of the search, the menu disappears.
To exit or interrupt the search, press **MENU**. If no programme is found, consult the possible solutions p. 14.
- 4 If the transmitter or cable network sends the automatic sort signal, the programs will be numbered correctly. In this case, the installation is complete.
- 5 If this is not the case, you need to use the **Sort** menu to number the programs correctly.
Some transmitters or cable networks broadcast their own sort parameters (region, language, etc.). In this case, indicate your choice using the **^** **v** keys and validate with **>**.

The Age of Clinton Gil Troy, 2004-07-02 A political historian's insightful and engaging assessment of President Clinton his administration and the turbulent era he helped define The 1990s saw seismic shifts in culture politics and technology that radically altered the way Americans did business expressed themselves and thought about their role in the world At the center of it all was Bill Clinton the charismatic yet flawed Baby Boomer president and his polarizing yet popular wife Hillary With the Cold War over America was safe stable and prosperous Yet Americans felt anxious and unsure of our role in the world This was the era of glitz grunge and Bill Clinton a man of passion and contradictions whose complex legacy has yet to be clearly defined Through an enlightening year by year analysis historian Gil Troy considers Clinton's presidency alongside the cultural changes that dominated the decade In so doing he answers two enduring questions about Clinton's legacy how did a president who accomplished so much leave Americans thinking he accomplished so little And to what extent was Clinton responsible for the catastrophes that followed his departure from office specifically 9 11 and the collapse of the housing market

Guide to Organisation Design Naomi Stanford, 2007-07-01 Business failure is not limited to start ups In America alone between 1990 and 2000 there were over 6.3 million business start ups and over 5.7 million business shut downs Risk of failure can be greatly reduced through effective organisational design that encourages high performance and adaptability to changing circumstances Organisation design is a straightforward business process but curiously managers rarely talk about it and even more rarely take steps to consciously design or redesign their business for success This new Economist guide explores the five principles of effective organisation design which are that it must be driven by the business strategy and the operating context not by a new IT system a new leader wanting to make an impact or some other non business reason involve holistic thinking about the organisation be for the future rather than for now not to be undertaken lightly it is resource intensive even when going well be seen as a fundamental process not a repair job Racing cars are designed and built They are then kept in good repair
