**Revolutionary Demonology** Gruppo di Nun, 2023-04-11 An anthology of occult resistance unpredictable and fascinating at times hallucinatory sallying politics philosophy cybertheory religion and music The End Times are here The Digital Middle Ages approaches the plague reaps its deadly harvest climate apocalypse is around the corner and fanaticism fascism and madness are rampant The idea that we might gain the upper hand over the dark abyss into which the planet is tumbling is a form of magical thinking laboring under the delusion that we can subdue eternity with relentless bloodlust brutish exploitation abuse of power and violence Revolutionary Demonology responds to this ritual of control typical of what esoteric tradition calls the Dogma of the Right Hand by reactivating the occult forces of a Left Hand Path that strives for the entropic disintegration of all creation so as to make peace with the darkness and nourish the Great Beast that will finally break the seals of Cosmic Love Unpredictable and fascinating genuinely bizarre at times hallucinatory sallying politics philosophy cybertheory religion and music alike with its fevered touch this anthology of occult resistance collects together the communiqués of an arcane group who are already being hailed as the first morbid blossoming of Italian Weird Theory a rogue contingent of theorists witches and sorcerers who heretically remix gothic accelerationism with satanic occultism and insurrectional necromancy

*The Neurotic Turn* Charles Johns, 2017-12-19 Taking their cue from the work of Charles Johns who has argued that far from being an ailment neurosis is in fact the dominant condition of our society today an array of thinkers have gathered in The Neurotic Turn to address the question what can neurosis tell us about our current social impasse What emerges in The Neurotic Turn is the awareness that the medicalization of neurosis was merely provisional Today to understand our increasingly synthetic digitized world we cannot retreat from neurosis or pretend to offer its cure Instead we must confront it dispensing with the conventional idea of reality in order to redefine it

**Theory-Fiction and Other Genres** Simon O'Sullivan,2024-11-27 This book looks at three different kinds of writing practice theory fiction autofiction autotheory and art writing that are increasingly prevalent as genres or hybrid genres in the arts and critical humanities The chapters in the book operate as a critical survey of these new forms of writing many examples are listed whilst at the same time they each work towards some provisional definitions Some key precursors to these new genres are also identified The book explores what these new kinds of writing do What is particular to them or what do they add to those already existing styles and genres and especially the academic essay and article Key here is that each form of writing works in a performative manner or as a device that enables a shift in perspective A case is made for their urgency in relation to contemporary issues and concerns and for their importance in terms of being both from and for more marginalised communities The book concludes with a discussion of machine writing and especially our collaboration with artificial intelligence language models
