Introduction

This quick start guide provides you with basic installation and setup instructions. A limited set of features are described in abbreviated form.

You may refer to the handset user's manual provided in the product packaging for installation and operation instructions, or visit the online Complete user's manual at www.vtechphones.com for complete installation and operation instructions.

Telephone base and charger installation

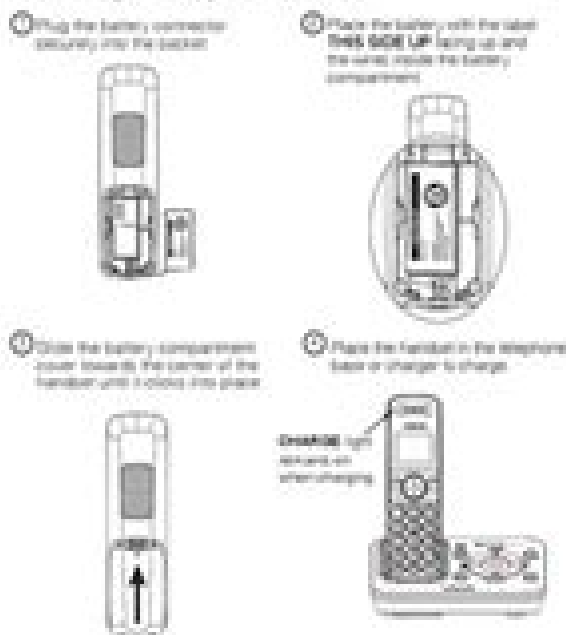

Install the telephone base and charger as shown below.

- Use only the power adapters and batteries supplied with this product.
- If you subscribe to telephone service from a cable company or a VoIP service provider, plug the telephone line cord into the RJ45-to-RJ11 terminal adapter provided by your cable/VoIP service provider. Contact your cable/VoIP service provider if you have any difficulties in installation.

Battery installation and charging

Install the battery as shown below. Once you have installed the battery, you may be able to make and receive short calls. For best performance, charge the handset battery continuously for at least 10 hours.

IMPORTANT:

Check for a dial tone by pressing **2**. If you hear a dial tone, the installation is successful.

If you do not hear a dial tone:

- Make sure the installation procedures described above are properly done.
- It may be a wiring problem. If you have changed your telephone service to digital service from a cable company or a VoIP service provider, the telephone line may need to be rewired to attach all existing telephone jacks to each other. Refer to **Rewiring of telephone line for cable/VoIP service users** for more information.

Enter the handset menu

1. Press **MENU** when the telephone is not in use.
2. Press **▼** or **▲** until the screen displays the desired feature menu.
3. Press **SELECT** to enter that menu.
- To return to the previous menu, press **CANCEL**.
- To return to idle mode, press and hold **CANCEL**.

Set date and time

1. Press **MENU** when the handset is not in use.
2. Scroll to **+SETTINGS** then press **SELECT**.
3. Scroll to **+SET DATE/TIME** then press **SELECT**.
4. Use the dialing keys (**0-9**) to enter the month, date and year and then press **SELECT**.
5. Use the dialing keys (**0-9**) to enter the hour and minute.
6. Press **▼** or **▲** to choose **AM** or **PM**.
7. Press **SELECT** to save.

Set number of rings

You can set the answering system to answer an incoming call after 3, 5, 6, 8, or 10 rings, or not answer. If you choose not answer, the answering system answers just after 2 rings when you have new messages, or after 4 rings when you have no new messages.

1. Press **MENU** when the handset is not in use.
2. Scroll to **+ANSWERING SYS** then press **SELECT**.
3. Scroll to **+ANS SYS SETUP** then press **SELECT**.
4. Scroll to **SP RINGS** then press **SELECT**.
5. Press **▼** or **▲** to choose 3, 5, 6, 8, or 10. In **TOLL SAVER** and then press **SELECT**.

Record your own announcements

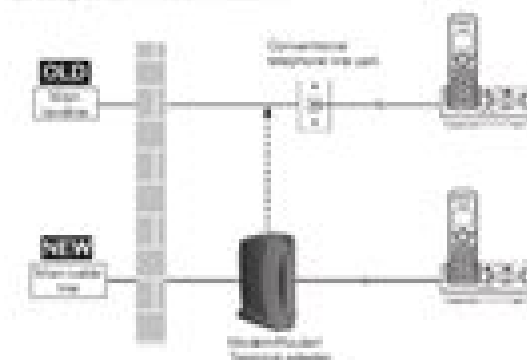

You can use the preset announcement to answer calls, or replace it with your own recorded announcement. The announcement can be up to 30 seconds in length.

1. Press **MENU** when the handset is not in use.
2. Scroll to **+ANSWERING SYS** then press **SELECT** twice.
3. The handset announces, "To play, press **2**. To record, press **7**." Press **7** to record.
4. The handset announces, "Record after the tone." Press **8** when you are done. After the tone, speak towards the handset microphone. Press **8** when done.
5. The answering system automatically plays back the newly recorded announcement. Press **8** to stop the playback at any time. **8** to replay the recorded announcement. **8** to delete the recorded announcement, or **7** to record again if desired.

Rewiring of telephone line for cable/VoIP service users

If you have changed to cable/VoIP service through a modem/terminal adapter to establish telephone connection, the existing telephone jacks in your home may no longer work. Your cable/VoIP service provider uses a separate cable connecting from the main line to the modem installed in your home.

To allow all existing telephone jacks to work, rewiring of the telephone line (as indicated by the dotted line in the illustration below) may be needed. Planning requires professional installation (fees may apply). Contact your cable/VoIP service provider for more information.

IMPORTANT!

Refer to the online Complete user's manual for a full set of installation and operation instructions. For manual download in customer service, visit our website at www.vtechphones.com or call 1 (800) 555-6577. In Canada, go to www.vtechphones.com or call 1 (800) 957-7577.
