

SimplyGo

Reliability and maintenance made simple!

COPD (chronic obstructive pulmonary disease) patients are dependent on oxygen therapy equipment that they need for many hours* a day. **SimplyGo** offers the independence and freedom patients want in a durable design that can resist the bumps and bruises of daily activities while providing an effective therapy.

Built-in reliability

SimplyGo strives to set a new standard in portable concentrators' reliability. **SimplyGo** has been designed, built, and rigorously tested to withstand the stress of everyday life when following patients anytime, anywhere.

During development, **SimplyGo** was subjected to extreme conditions including impact, vibrations, and temperature extremes to test reliable performance day-in and day-out. With 15000 hours of compressor lifetime, its performance is trustworthy. This may mean fewer callbacks for you and fewer frustrations for your patients due to accidental damage.

You can count on **SimplyGo**.

Maintenance made simple!

SimplyGo makes it easy for providers, as it requires virtually no preventive or patient maintenance.

SimplyGo is flexible:

- Make a choice between two-, three-, or five-year warranty. Pick the plan that's best for your service.
- **SimplyGo's** easily accessible parts and comprehensive service tools allow your technicians to service the device in-house instead of returning it to the manufacturer.

Notes:

*Clinical guidelines recommend that COPD patients should use oxygen therapy for at least 15 hours per day to have positive effects on their long-term survival and their quality of life. Therefore, these patients require oxygen at home (stationary oxygen therapy) and outside (ambulatory oxygen therapy).
