

Air Fairing Repair
VNL, VNM

Air Fairing Repair

(Effective from September 1998)

This bulletin describes the approved procedures for making cosmetic and structural repairs to the VN Series air fairings. At this time, Volvo Trucks North America recommends using only Fusor[®] bonding and repair materials for repairing VN air fairings.

CAUTION

DO NOT use fiberglass resin or other polyester fillers to repair VN air fairings. In time, the adhesion of these materials is lost and the repair will fail. Use only the approved Fusor repair materials.

VN Series air fairings are composed of either telene or metton panels, which are similar to the VN hood's SMC composition. Although these materials appear similar to fiberglass, the techniques for repair are quite different. Only Fusor bonding materials have been approved for panel bonding, structural repairs and cosmetic repairs on the Volvo metton and telene panels.

This bulletin contains the following information:

- "Special Tools" page 2
- "Dispenser/Adhesive Preparation" page 3
- "Air Fairing, Cosmetic Repair" page 3
- "Air Fairing, Structural Repair" page 4
