Cinema and the Algerian War of Independence Ahmed Bedjaoui, 2020-03-25 The book examines the war of images between France and Algeria Discussing the role of the United States during the war it covers topics such the presence of American reporters in Algeria John F Kennedy s support for Algerian independence while a senator the broadcasting of documentaries on the Algerian war on public television and reporting in the press Even half a century after Algerian independence there remains a need for both film and literature on the war from both sides of the Mediterranean This might seem surprising particularly to media professionals given the quantity of output on the subject but both French and Algerian portrayals of the war remain flawed and shackled to their respective ideologies The generation of FLN leaders recognized early on the importance of images and established a clandestine film structure that would bring the Algerian cause to the world stage The book offers an insightful and timely contribution not just to the field of North African studies but also to other disciplines such as film and media studies anthropology history journalism and political science Providing a rich source of research topics and viable ideas for film and documentary projects it is a must read for students scholars and media professionals alike **The Reparative in Narratives** Mireille Rosello, 2010-01-01 The authors studied in this book can be visualized as the islands that constitute an unknown fragile and trembling literary and cultural Francophone archipelago The archipelago does not appear on any map in the middle of an ocean whose name we already know No Francophone anthology would put these authors together as a matter of course because what connects them is a narrative grammar rather than a national origin or even a language Yet their writing techniques and their apprehension of the real the ways in which they

know and name the world both reflect and actively participate in our evolving perception of what Gayatri Spivak calls the planet The Reparative in Narratives argues that argue that they repair trauma through writing One description of these awe inspiring tender and sometimes horrifying tales is that their narrators are survivors who have experienced and sometimes inflicted unspeakable acts of violence And yet ultimately despair nihilism cynicism or silence are never the consequences of their encounter with what some quickly call evil The traumatic event has not killed them and has not killed their desire to write or perform although the decidedly altered life that they live in the aftermath of the disaster forces them to become different types of storytellers They are the first person narrators of their story and their narration reinvents them as speaking subjects In turn this requires that we accept new reading pacts That pact is a temporal and geographical signature the reparative narrative needs readers prepared to accept that healing belongs to the realm of possibilities and that exposure and denunciation do not exhaust the victim s range of possibilities Rosello contends that this context specific yet repeating pattern constitutes a response to the contemporary figuration of both globalized and extremely localized types of traumatic memories

Thomas Bernhard: Language, History, Subjectivity ,2023-07-10 Thomas Bernhard one of the most significant post war European writers continues to fascinate The twenty essays in this bilingual volume offer new readings of the Austrian writer s works via three interconnected strands language history and subjectivity In Austria Bernhard was often viewed as an enfant terrible Yet after his death in 1989 he has increasingly undergone what novelist Alexander Schimmelbusch calls a Mozartisation Against this background the volume refocuses attention on Bernhard s works themselves underlining why these continue to be subversive and compelling The essays in this volume address Bernhard s creative linguistic interventions his theatrical verve his literary persona and his response to the traumatic historical legacy which continues to shape Austrian subjectivities long after 1945 Thomas Bernhard einer der bedeutendsten europ ischen Nachkriegsautoren wurde in sterreich oft als enfant terrible wahrgenommen Nach seinem Tod in 1989 kam es jedoch immer mehr zu einem Prozess der Mozartisierung Alexander Schimmelbusch dem Versuch Bernhard in das offizielle sterreichische Selbstbild einzureihen Vor diesem Hintergrund lenkt dieser Band die Aufmerksamkeit wieder auf Bernhards Werke selbst und unterstreicht warum diese nach wie vor subversiv spannend und nicht zuletzt irritierend sind Unter den miteinander verbundenen Themenschwerpunkten Sprache Geschichte und Subjektivit t befassen sich die Beitr ge mit Bernhards kreativen sprachlichen Interventionen seiner theatralischen Pr senz seiner literarischen Persona und seiner Reaktion auf das traumatische historische Erbe das die sterreichischen Subjektivit ten noch lange nach 1945 pr gt Auch aber keineswegs nur deshalb hat Bernhard nichts von seiner Faszination eingeht The Deer Hunter Brad Prager,2023-09-07 Michael Cimino s The Deer Hunter was met with both critical and commercial success upon its release in 1978 However it was also highly controversial and came to be seen as a powerful statement on the human cost of America s longest war and as a colonialist glorification of anti Asian violence Brad Prager s study of the film considers its significance as a war movie and contextualizes its critical reception Drawing on an archive of contemporaneous materials as well as an in depth analysis of the film s lighting mise en sc ne multiple cameras and shifting depths of field Prager examines how the film simultaneously presents itself as a work of cinematic realism while problematically blurring the lines between fact and fiction While Cimino felt he had no responsibility to historical truth depicting a highly stylized version of his own fantasies about the Vietnam War

Prager argues that *The Deer Hunter*'s formal elements were used to bolster his troubling depictions of war and race. Finally comparing the film with later depictions of US-led intervention such as Albert and Allen Hughes's *Dead Presidents* (1995) and Spike Lee's *Da 5 Bloods* (2020), Prager illuminates *The Deer Hunter*'s major presumptions, blind spots and omissions while also presenting a case for its classic status.

Les beaux chevaux de Pâques Etienne Gressin, 2022-09-15 Ce roman pistolaire imprégné de poésie et ponctué de l'humanisme d'Antoine de Saint-Exupéry relate la romance entre une jeune juive combattive et un officier allemand assez virulent pendant la Seconde Guerre mondiale. Au fil des pages, le lecteur découvrira les circonstances de leurs retrouvailles tragiques, Auschwitz, sous-fond de philosophie et de l'histoire. Un récit savourer avec autant d'imagination que de réalisme.

PROPOS DE L'AUTEUR Auteur de deux recueils de poésie, Etienne Gressin est un altermondialiste et un philosophe attentif qui aime littéralement jouer avec les mots. Il signe avec *Les beaux chevaux de Pâques* son premier roman.

Tous les films, 1980 L'élaboration mentale Raphael Miljkovitch, Caroline Beauvais, 2021-11-23 L'élaboration mentale ou psychique est un concept clef en psychologie, psychiatrie et psychothérapie. Elle est considérée comme essentielle à la régulation des affects, elle est indispensable au bon développement de la personne. L'élaboration serait de même au cœur du processus thérapeutique en permettant une réduction de l'anxiété et du passage à l'acte pathologique. Introduite initialement en psychanalyse comme le moyen par lequel l'énergie pulsionnelle est transformée ou reliée des représentations, le terme est aujourd'hui utilisé de manière courante par les différents courants psychiques. Les progrès scientifiques dans diverses disciplines permettent aussi d'avoir une meilleure définition des mécanismes en jeu, et il paraît important de mieux définir ce concept et ce qui sous-tend le développement psychologique de l'individu. Bien que cette notion soit ancienne et couramment utilisée, les questions restent nombreuses, par exemple : suppose-t-elle des capacités cognitives minimales ? Est-elle possible ? un géprécocité ? Nécessite-t-elle le langage verbal ? Comment un développement s'articule-t-il aux différents troubles mentaux et somatiques ? Quels sont les mécanismes en œuvre dans le travail thérapeutique ? Ce livre, qui est le premier ouvrage complet sur le sujet, a pour ambition de répondre à ces différentes questions en réunissant des experts en psychanalyse, psychologie, développement, psychologie cognitive, neurosciences, psychiatrie, ergothérapie, linguistique, modélisation informatique, philosophie, etc. Il s'adresse aussi bien aux psychiatres, psychologues et psychothérapeutes en exercice qu'aux étudiants dans ces disciplines.
