Using Evidence in Policy and Practice Ian Goldman, Mine Pabari, 2020-06-10 This book asks how governments in Africa can use evidence to improve their policies and programmes and ultimately to achieve positive change for their citizens Looking at different evidence sources across a range of contexts the book brings policy makers and researchers together to uncover what does and doesn't work and why Case studies are drawn from five countries and the ECOWAS west African region and a range of sectors from education wildlife sanitation through to government procurement processes The book is supported by a range of policy briefs and videos intended to be both practical and critically rigorous It uses evidence sources such as evaluations research synthesis and citizen engagement to show how these cases succeeded in informing policy and practice The voices of policy makers are key to the book ensuring that the examples deployed are useful to practitioners and researchers alike This innovative book will be perfect for policy makers practitioners in government and civil society and researchers and academics with an interest in how evidence can be used to support policy making in Africa The Open Access version of this book available at <https://doi.org/10.4324/9781003007043> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**Thrive** Richard Layard, David M. Clark, 2014-07-03 A groundbreaking argument for better treatment of mental health from Richard Layard author of *Happiness* and David M Clark Britain has become a world leader in providing psychological therapies thanks to the work of Richard Layard and David Clark But even so in Britain and worldwide the majority of people who need help still don't get treatment This is both unjust and a false economy This book argues for change It shows that mental ill health causes more of the suffering in our society than physical illness poverty or unemployment Moreover greater spending on helping people to recover from mental health problems and stay well would generate massive savings to national economies as those who suffer from depression and anxiety disorders account for nearly a half of all disability and are predominantly of working age Modern talking therapies such as CBT Cognitive Behavioural Therapy are highly effective and if more sufferers got these treatments lives would be turned around and the cost would be fully covered by the huge savings *Thrive* explores the new effective solutions to the misery and injustice caused by mental illness It describes how successful psychological treatments have been developed and explains what works best for whom It also urges us to do all we can to prevent these problems in the first place through better schools and a better society And most importantly it offers real hope This book is an inspiring success story and a stirring call to further action Its message is as compelling as it is important the social costs of mental illness are terribly high and the costs of effective treatments are surprisingly low Daniel Kahneman Extremely easy and pleasurable to read It's the most comprehensive humane and generous study of mental illness that I've come across Melvyn Bragg Remarkable presents the issues in a style that's easy for the professional the general public and policy makers to understand Aaron T Beck Professors Layard and Clark the Dream Team of British Social Science make a compelling case for a massive injection of resources into

the treatment and prevention of mental illness This is simply the best book on public policy and mental health ever written Martin Seligman RICHARD LAYARD is one of the world's leading labour economists and in 2008 received the IZA International Prize for Labour Economics A member of the House of Lords he has done much to raise the public profile of mental health His 2005 book *Happiness* has been translated into 20 languages DAVID M CLARK Professor of Psychology at Oxford is one of the world's leading experts on CBT responsible for much progress in treatment methods With Richard Layard he was the main driver behind the UK's Improving Access to Psychological Therapies programme
