McCulloch chain saws are identified by a model number (e.g. 310) followed by a serial number (e.g. 600042). A suffix letter or letters (e.g. A, C, etc.) appears on the identification plate attached to the saw. Suffix letters denote variations in parts or assemblies in the manufacture of the saw.

Part numbers listed in this I.P.L. which have a suffix letter or letters following the description, indicate the part is used only on the model(s) identified by the letter or letters.

Part numbers and descriptions without suffix letter or letters apply to all versions of the chain saw model.

Part numbers which have one or more dots (.) preceding their descriptions may be ordered individually, but they are also included in the kit or assembly whose description begins directly above the dots.

Part numbers in this I.P.L. which were not in the previous I.P.L. covering those parts, are indicated by a dash (-) preceding the new part number.

The policy of McCulloch Corporation is one of continual improvement in design, manufacturing and engineering advancement; whenever possible to assure still finer two-stroke power tools. Hence, specifications, equipment, colors, design and manufacturing suggestions and prices are subject to change without notice and McCulloch Corporation reserves the right to make such changes without prior notification or obligation to purchase or supply backfit components for units previously shipped from the factory.
