## **Practical Assessment Task Phase 2014:**

Assessment for Learning Rita Berry, 2008-09-01 Assessment is an important part of effective teaching and learning. It allows achievements to be recognized and helps both teachers and learners to reflect on and review their performance and progress. While assessment has long been an end of learning activity to measure what learners can do, the outcome oriented approach does not always foster learning motivation effectively. A new perspective now encourages ongoing appraisal in the classroom to improve learning. This book reflects current thinking of assessment with a stated focus on assessment for learning AfL. It informs teachers about the latest developments and provides teachers with important tools for integrating assessment in the classroom. The discussions on assessment theories are in depth and the examples used for illustrating the concepts are plentiful.

**Conceptualising Integration in CLIL and Multilingual Education** Tarja Nikula, Emma Dafouz, Pat Moore, Ute Smit, 2016-08-18 Content and Language Integrated Learning (CLIL) is a form of education that combines language and content learning objectives, a shared concern with other models of bilingual education. While CLIL research has often addressed learning outcomes, this volume focuses on how integration can be conceptualised and investigated. Using different theoretical and methodological approaches ranging from socioconstructivist learning theories to systemic functional linguistics, the book explores three intersecting perspectives on integration concerning curriculum and pedagogic planning, participant perceptions and classroom practices. The ensuing multidimensionality highlights that in the inherent connectedness of content and language, various institutional pedagogical and personal aspects of integration also need to be considered.

The book advances the ongoing discussions and innovations in hospitality and tourism education and informs current and future research and practice. Its focus on digital technology and a range of innovative pedagogy for teaching and learning methods provides a practical engaging and essential toolkit for teachers and learners.
